Rates of Mortality - Ratio of Rates for One Period to Rates for the Preceding Period	56

EXPLANATORY NOTES, ETC.

Population Estimates

From September 1961, a new series of quarterly and annual population estimates for Tasmania have been prepared, together with re-calculated mean population estimates for the financial and calendar years ending subsequent to that date.

In the method used in preparing the new series of estimates, the population of the State is estimated by adding to the 1961 Census population, natural increase, net overseas migration and net interstate movements in so far as they are recorded as transfers of residence under child endowment procedures or Commonwealth Electoral procedures. Holiday, business or other similar short-term interstate movements are omitted.

As a result of this change, the marked annual seasonal rise in the December population of the State is no longer reflected in the estimates.

Statistical Divisions

Further changes, operative from 1 January 1966, were made to the Statistical Divisions, etc. of Tasmania. However, these latest changes affect only the southern part of the State; their effect is to enlarge and rename the Statistical Division containing Hobart and Glenorchy, and to correspondingly diminish the area of the adjacent Southern and South Eastern Statistical Divisions.

Whilst the enlarged Division containing Hobart and Glenorchy has been *renamed*, the diminished Southern and South Eastern Divisions *retain the same name*. Care should be taken in comparing these Divisions' figures for earlier years with figures for 1966 and later periods. The changed Divisions and their composition are listed below:

CHANGED STATISTICAL DIVISIONS

Changed Divisions	New Components (in terms of Local Government Areas)	Nature of Change
Hobart Statistical Division (replaces South Central Division and area greatly enlarged) *See map Page 4.*	Hobart, Glenorchy, Clarence plus *part* of Brighton, Kingborough, New Norfolk and Sorell	South Central Division (Hobart and Glenorchy) absorbed and *part* of previous Southern and SE. Divisions incorporated
South Eastern (name unchanged but area diminished)	Glamorgan, Green Ponds, Richmond, Spring Bay, plus *part* of Brighton and Sorell	Clarence plus *part* of Brighton and Sorell transferred to Hobart Division
Southern (name unchanged but area diminished)	Bruny, Esperance, Huon, Port Cygnet, Tasman, plus *part* of Kingborough and New Norfolk	*Part* of Kingborough and New Norfolk transferred to Hobart Division

In tables, totals are shown for complete Local Government Areas but, in arriving at totals for the three Divisions above, account is taken of partitioned areas (i.e. Brighton, Sorell, Kingborough and New Norfolk).

Hobart Metropolitan Area (*See Map, Page 4*)

From 1 January 1966, this replaces the previous 'Hobart and Suburbs' and includes only the *continuous* area of urban development (based on Australia-wide density criteria); thus rural parts of Hobart and Glenorchy and the suburbs of Kingston and Blackmans Bay are now excluded. The Hobart Metropolitan Area includes the urban portions of Hobart City and Glenorchy City, Taroona south to the Shot Tower and the eastern suburbs from Risdon Vale south to Tranmere.

Urban Launceston

Although defined as the area of continuous urban development, Urban Launceston differs little from the previous Launceston and Suburbs.

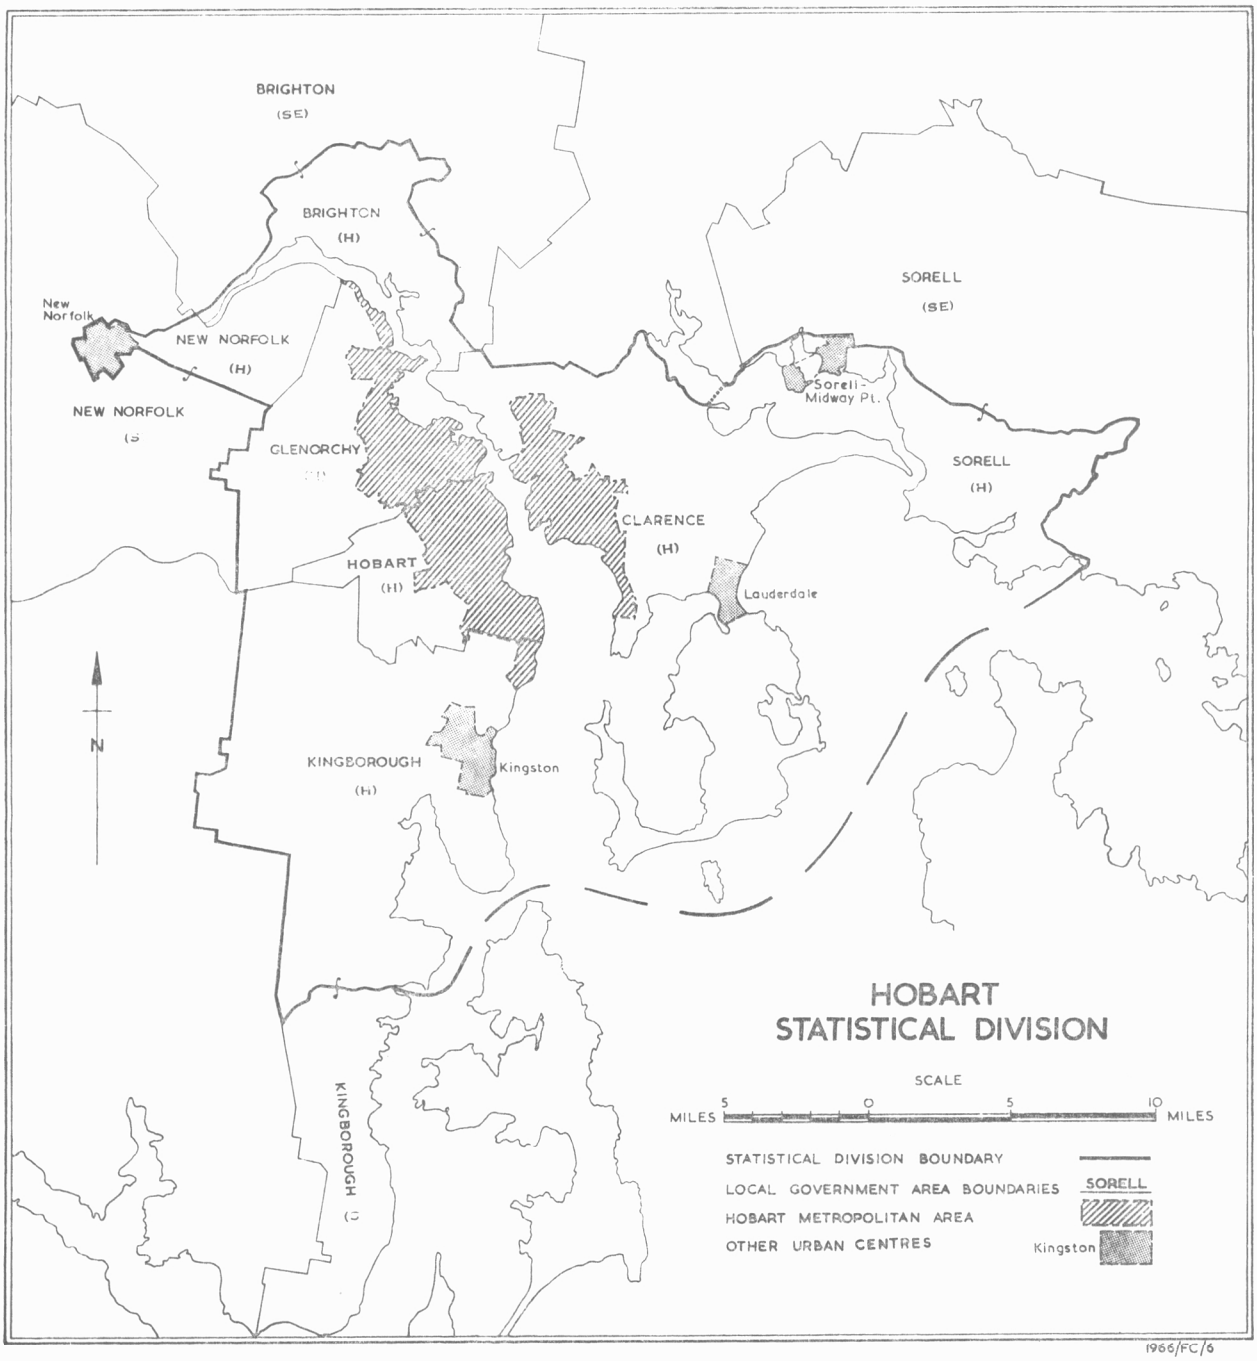

Other Urban Centres

These are population clusters of 1,000 or more persons, having a minimum density of 500 persons per square mile. In addition some areas of lower population and/or density are classified as 'urban' on other grounds, e.g. holiday areas, industrial areas, etc. Details of population of principal urban areas at the Census of 30 June 1966 may be found on page 10.

Statistical Division Boundary Changes, 1 January 1966

The following shows the make-up of the Hobart Statistical Division, composed of 3 whole Local Government Areas and parts of 4 others. The letters next to the name of each Local Government Area on the map below indicate which municipalities have been partitioned, and the effect of this on the South Eastern and Southern Divisions.

Local Government Area	Statistical Division
Hobart	Hobart
Glenorchy	Hobart
Clarence	Hobart
Brighton	South Eastern and Hobart
Sorell	South Eastern and Hobart
Kingborough	Southern and Hobart
New Norfolk	Southern and Hobart

NOTE: The following abbreviations for statistical divisions are used in the map above and in Local Government Area tables throughout the Bulletin: (H) = Hobart Statistical Division; (SE) = South Eastern Statistical Division; and (S)=Southern Statistical Division.

1. POPULATION

NOTE: Full-blood aboriginals are included in this section from 30 June 1961; prior to that date they were excluded.

ESTIMATED POPULATION, 30 JUNE AND 31 DECEMBER; MEAN POPULATION, FINANCIAL AND CALENDAR YEARS

Year	Estimated Population						Mean Population	
	At 30 June			At 31 December			Year ended 30 June	Year ended 31 Dec.

(*a*) Excludes 1 full-blood aboriginal.
(*b*) All persons of individual citizenship status who by virtue of the *Nationality and Citizenship Act* 1948, are deemed to be British subjects. For purposes of this table Irish nationality is included with British.

POPULATION: URBAN CENTRES, 1961 AND 1966

NOTES: (i) For metropolitan and other urban centres, which are delimited by moving boundaries (see Explanatory Notes on pages 3 and 4), boundaries for 1961 have been redrawn according to the new criteria. The urban populations (partly estimated) within these boundaries are shown in this table for comparison with 1966 population. The intercensal increase or decrease between 1961 and 1966 may therefore reflect (i) population changes within the original 1961 boundaries, (ii) urban growth beyond the original boundaries, and (iii) the merging of other urban areas, one with another, or with the Metropolitan Area.

(ii) In the table below:

(*a*) The following abbreviations are used: (C) = *part* of City; (M) = *part* of Municipality; n.a. = not available.
(*b*) The minus sign (−) denotes a decrease in population.
(*c*) Only centres classified as urban in 1966 are included.

Urban Centre (with L.G.A. components)	Census, 30 June 1961	Census, 30 June 1966			Intercensal Increase or Decrease

1967	18	44	24	10	96	23	65	38	26	152	248

(*a*) Includes nullities of marriage and judicial separations.

(*b*) Separation became a ground for dissolution under the Commonwealth *Matrimonial Causes Act* 1959 (see note (*d*)).

(*c*) Includes, from 1961, dissolutions on multiple grounds (see note (*d*)).

(*d*) The Commonwealth *Matrimonial Causes Act* 1959, which came into operation on 1 February 1961, supersedes the State Matrimonial Causes laws except in so far as the transitional provisions of the Act keep them in force for the purpose of completing pending proceedings.

(*a*) Causes of death for ages stated in weeks and months are shown on page 23
(*b*) The classification used for Class XVII is that according to external cause (the E code).

DEATHS FROM MALIGNANT NEOPLASMS (ALL FORMS) COMPARED WITH DEATHS FROM ALL CAUSES

NOTE: Owing to changes in classification and in the methods of determining a single cause of death in cases where multiple causes are shown on the death certificate, the figures in the following table are not strictly comparable throughout the whole period. However, the figures from 1950 onwards are on a comparable basis.

Year	Number of Deaths			Death Rate Per 100,000 of Mean Population	Proportion of Deaths from All Causes (Per cent)
	Males	Females	Persons		
1870-79 (*a*)	27	22	49	47	3.0
1880-89 (*a*)	33	30	63	50	3.2
1890-99 (*a*)	42	40	82	52	4.0
1900-09 (*a*)	51	53	104	57	5.4
1910-19 (*a*)	68	74	142	73	7.2
1920-29 (*a*)	92	93	185	86	8.9
1930-39 (*a*)	125	128	253	109	11.3
1940-49 (*a*)	138	149	287	115	11.6
1950-59 (*a*) (*b*)	187	180	367	118	14.1
1950 (*b*)	159	164	323	115	13.1
1951	182	180	362	126	14.1
1952	171	188	359	120	13.9
1953	178	168	346	112	13.6
1954	196	197	393	126	14.6
1955	187	181	368	117	14.8
1956	191	185	376	117	15.0
1957	213	173	386	118	14.5
1958	200	191	391	117	14.4
1959	197	171	368	108	13.2
1960	230	177	407	117	15.2
1961	200	196	396	113	14.2
1962	263	203	466	129	16.2
1963	207	211	418	115	14.8
1964	230	221	451	123	14.2
1965	246	233	479	130	15.7
1966	251	245	496	133	15.7
1967	302	227	529	140	16.4

(*a*) Annual average for the ten-year period.
(*b*) As from 1950, neoplasms of lymphatic and haematopoietic tissues are included.

DEATHS FROM TUBERCULOSIS (ALL FORMS) COMPARED WITH DEATHS FROM ALL CAUSES

NOTE: The note at the head of the above table applies to this table also.

Year	Number of Deaths			Deaths Rate Per 100,000 of Mean Population	Proportion of Deaths from All Causes (Per cent)
	Males	Females	Persons		
1870-79 (*a*)	71	64	135	128	8.2
1880-89 (*a*)	80	74	154	124	7.7
1890-99 (*a*)	87	84	171	109	8.3
1900-09 (*a*)	81	84	165	91	8.4
1910-19 (*a*)	71	73	144	74	7.2
1920-29 (*a*)	74	71	145	67	7.0
1930-39 (*a*)	66	60	126	55	5.7
1940-49 (*a*)	59	47	106	43	4.3
1950-59 (*a*)	22	16	38	13	1.5
1950	27	44	71	25	2.9
1951	32	36	68	23	2.6
1952	36	19	55	18	2.1
1953	14	10	24	8	0.9
1954	27	8	35	11	1.3
1955	20	11	31	10	1.2
1956	20	12	32	10	1.3
1957	14	2	16	5	0.6
1958	20	11	31	9	1.1
1959	13	6	19	6	0.7
1960	14	8	22	6	0.8
1961	10	5	15	4	0.5
1962	11	1	12	3	0.4
1963	10	4	14	4	0.5
1964	10	1	11	3	0.3
1965	6	3	9	2	0.3
1966	6	5	11	3	0.3
1967	4	3	7	2	0.2

(*a*) Annual average for the ten-year period.

NUMBER OF DEATHS, DEATH RATES AND MORTALITY INDEXES

Year	Number of Deaths			Crude Death Rates per 1,000 of Mean Population			Mortality Indexes (Base Year 1901 = 1.000) (a)			Ratio of Male to Female Mortality (a)
	Males	Females	Persons	Males	Females	Persons	Males	Females	Persons	
1901	1,001	813	1,814	11.16	9.82	10.51	1.000	1.000	1.000	1.136

10. AUSTRALIAN LIFE TABLES

AUSTRALIAN MALE LIVES, 1960 TO 1962: ELEMENTARY VALUES

l_x = Number surviving at each age out of 100,000 born
d_x = Number dying in each year of age out of 100,000 born
p_x = Probability of surviving one year at each age
q_x = Probability of dying within one year at each age
μ_x = Force of mortality at each age
$\mathring{e}_x$ = Complete expectation of life at each age

Age x	l_x	d_x	p_x	q_x	μ_x	$\mathring{e}_x$	Age x	l_x	d_x	p_x	q_x	μ_x	$\mathring{e}_x$

AUSTRALIAN FEMALE LIVES, 1960 to 1962: ELEMENTARY VALUES

l_x = Number surviving at each age out of 100,000 born
d_x = Number dying in each year of age out of 100,000 born
p_x = Probability of surviving one year at each age
q_x = Probability of dying within one year at each age
μ_x = Force of mortality at each age
$\mathring{e}_x$ = Complete expectation of life at each age

Age x	l_x	d_x	p_x	q_x	μ_x	$\mathring{e}_x$	Age x	l_x	d_x	p_x	q_x	μ_x	$\mathring{e}_x$

OVERSEAS AND INTERSTATE TRADE AND SHIPPING

BASIC DOCUMENTS

Overseas Trade statistics have been derived from documents obtained under the Customs Act by the Department of Customs and Excise and compiled by the Commonwealth Bureau of Census and Statistics, Canberra.

Interstate Trade by Sea statistics have been derived from documents obtained by Marine Boards under the Marine Act and compiled by the Tasmanian Office of the Commonwealth Bureau of Census and Statistics. Interstate Trade by Air statistics have been derived from returns supplied direct to the Tasmanian Office of the Commonwealth Bureau of Census and Statistics by all those who use this medium for the interstate transportation of goods.

Shipping statistics have been compiled by the Commonwealth Bureau of Census and Statistics, Canberra, from details supplied by the Department of Customs and Excise and by State Authorities controlling ports and harbours. Warships are excluded from all tables.

SCOPE OF THE STATISTICS

The statistics included in this bulletin relate to:

(*a*) goods imported and exported by sea and air as part of Tasmania's trade with other Australian States and overseas countries.

(*b*) vessels from other Australian States and overseas countries entered at ports in Tasmania.

DEFINITIONS AND EXPLANATORY NOTES

Country of Consignment or Origin: The overseas countries shown are those from and to which direct shipments are made. Goods shown as imported from other Australian States include those goods imported from overseas and trans-shipped to Tasmania. Similarly, exports to other Australian States include goods exported for trans-shipment overseas.

External territories under Australian administration (e.g. Papua and New Guinea and Nauru) are treated as overseas countries. The separation of Commonwealth and Foreign countries as shown in previous bulletins has been discontinued. Countries are now shown in alphabetical order.

Valuation: All values in this bulletin are expressed in $ (Aust.) and are determined on a 'free on board (f.o.b.) port of shipment' basis. All monetary amounts originally recorded in the old currency have been converted to equivalent amounts in decimal currency. The procedure adopted to value overseas and interstate trade is as follows:

Overseas exports are valued at the Australian f.o.b. port of shipment equivalent of the actual price at which the goods were sold or, where shipped on consignment, of the price paid for similar goods of Australian origin in the principal markets of the country to which they are dispatched for sale. The recorded values include the cost of containers and outside packages.

The recorded values of overseas imports is the 'value for duty' as laid down for customs purposes, i.e. the f.o.b. port of shipment equivalent of the actual price paid by the importer plus any special deduction (transaction value) or of the current domestic value in the exporting country, whichever is the higher.

Interstate Imports and Exports are valued at the f.o.b. port of shipment equivalent of the actual price at which the goods were sold.

Quantity Data: Where quantities are shown, they are expressed as far as possible in terms of the normal trade unit. Quantities are not quoted in respect of any commodity for which there is no appropriate unit of quantity or for any statistical item which covers a number of commodities that cannot be recorded under a uniform unit of quantity.

Commodity Classification: Up to 1964-65 trade statistics were compiled according to the 'Statistical Classification of Imports and Exports'. From July 1965 imports have been classified to the new Australian Import Commodity Classification. This classification is based on the Standard International Trade Classification, Revised (S.I.T.C.). The basis of the classification of exports remained unchanged for 1965-66. A new Australian Export Commodity Classification based on S.I.T.C. was introduced for 1966-67.

Outside Packages: From 1965-66, the value of containers, crates, etc. in which goods are imported from overseas is included in import tables under 'Section 9A—Commodities and Transactions of Merchandise Trade not elsewhere classified'. For 1966–67, the recorded value of these outside packages was $682,023. (The value of outside packages is excluded from all import values prior to 1965-66.) For overseas exports however, the recorded value for each item includes the cost of the outside packages and there is no break in the comparability of the series.

Tourists' etc. Motor Vehicles: Details of tourists' etc., motor vehicles entering and leaving the State are included in trade statistics. The inauguration of interstate vehicular ferry services in recent years has resulted in a sharp increase in the movement of such vehicles and, in 1966-67, about $19,500,000 of both import and export values derived from this source. As tourists' vehicles entering and leaving the State in a year are in approximate balance the State's balance of trade is virtually unaffected by their inclusion.

Ports in Tasmania: The names of ports in tables throughout this bulletin refer to the cities or towns in which the controlling Marine Boards are located. Thus 'Hobart' includes Port Huon; 'Launceston' includes Bell Bay, etc. On 1 January 1963 the port of Ulverstone came under the control of the Marine Board of Devonport, and from that date trade through Ulverstone has been included under 'Devonport'.

Rounding: Where figures have been rounded in this publication, any discrepancies between totals and sums of components are due to rounding.

TRADE

SHIPPING

The shipping statistics contained in the following two tables (this page and page 32) have been compiled on a new basis. The following principles apply to this series:

(i) vessels of 200 tons and under are excluded;

(ii) a vessel is shown as entering or leaving a port irrespective of the type of journey (in the old series only the first port of entry into a State and the last port of departure from the same State were taken into account).

The new series more faithfully reflects the volume of shipping passing through individual ports.

The number and net tonnage of vessels visiting Tasmania may be obtained by adding: (i) *overseas direct;* (ii) *overseas via other State;* (iii) *interstate direct.* In 1966–67, the total of these three items was 1,689 vessels (net tonnage 4,090,000) which represents the *unduplicated* total of vessels visiting Tasmania (see page 32 for details).

The two tables on page 33 contain shipping details up to and including 1965-66 only, and are based on the old eries. Comparable statistics for later years will not be available.

(*a*) The figures given for each port do *not* take into account coastal movement of shipping. Ships are recorded as arrivals at the *first* Tasmanian port of call only, and as departures only at the *last* port of call in Tasmania. A vessel coming direct to Stanley from Melbourne, calling at Burnie, Ulverstone, Devonport and Launceston and leaving the latter port for Sydney, would be recorded only as an arrival at Stanley and a departure from Launceston. For total shipping (including coastwise) at each port, see following table.
(*b*) Includes shipping through the port of Ulverstone from January 1963; see note on page 3.
(*c*) July to December 1962 only; see note on page 3.
(*d*) Included in Devonport; see note on page 3.

GENERAL NOTES

Values in this publication are expressed in dollars($) and/or cents (c) Australian.

Where figures have been rounded in this publication, any discrepancies between totals and sums of components are due to rounding. (This includes conversions of fractions to nearest whole numbers.)

As from 30 June 1966, changes have been made to some Statistical Division boundaries. See page 6 for explanations of these changes.

RURAL INDUSTRY STATISTICS

SCOPE

The Statistics contained in this Bulletin are, in general, compiled annually. They comprise: Number, area and land utilisation on rural holdings; area, production and yield per acre of crops; number of holdings growing principal crops; areas sown to grasses and clovers; livestock numbers at 31 March; breeds of sheep; lambing; shearing; wool production; classification of wool; slaughterings and meat production; dairy production and utilisation; bee-farming; rural employment; principal items of farm machinery; irrigation; fertilisers used; and various other miscellaneous items. Additional details relating to farm machinery are compiled triennially and rural holdings classified by size and type at irregular intervals.

SOURCES OF INFORMATION

The statistics are, in the main, compiled from census returns (see Appendix 'A') of agricultural, pastoral and dairying production collected from some 10,600 rural holdings in Tasmania at 31 March each year. In conjunction with the general census, supplementary collections from farms are conducted where the harvesting of certain crops has not been completed by the 31 March (e.g. apples, potatoes).

Additional information is also obtained from a number of entirely separate collections covering such data as slaughterings, meat production and dairy production and from various outside authorities.

PERIOD COVERED

Data relating to area sown, production, yield per acre and number of holdings growing crops are, in general, for the season ended 31 March. In cases where harvesting has not been completed by 31 March (e.g. potatoes) total production is nevertheless included.

Livestock numbers are reported as at 31 March but production of livestock products have, in general, been shown for the twelve months ended 30 June.

Farm machinery on rural holdings is reported as at 31 March.

A seasonal calendar showing approximate dates of planting and harvesting, shearing, lambing and slaughtering for export appears on page 70 of this Bulletin.

DEFINITIONS AND EXPLANATORY NOTES

Rural Holdings: A 'rural holding' is defined for the purpose of these statistics as a piece of land of one acre or more in extent, used for the production of agricultural products or for the raising of livestock and the production of livestock products. In cases where land owners or occupiers possess or work more than one holding, separate returns are required for each except where the holdings are in close proximity and are worked as one.

During 1965 extensive checks were made of the lists of rural holdings against other sources of information and as a result 600 holdings previously excluded from the census were included in 1966. Most of these were relatively small and contributed no more than one per cent to State totals of most crop and livestock items.

Up to 1965 the census included a large number of marginal holdings most of which were small and used for residential purposes only. Approximately 800 of these holdings were excluded from the 1966 census.

The net result of these two factors was an overall decline of approximately 200 holdings at 31 March, 1966 as compared with the previous year.

Area of Crops: Total area of land sown or planted to crops is shown irrespective of whether the whole area was subsequently harvested or whether a portion or the whole of the crop failed and was not harvested.

Where two successive crops are grown on the same land during the one season, the land is included twice in area of crops. Where two crops are grown together, however, the area is counted once only and is divided between the different crops according to the proportion of each crop grown. No data on the area planted to individual varieties of orchard fruits are collected but estimates are included in this Bulletin based on the reported total acreage and number of trees of each variety planted.

Yield Per Acre: Statistics published in this Bulletin relate to yield per acre sown or planted. Data as to acreages of crops actually *harvested* (as distinct from *sown* or *planted*) are not collected and consequently particulars of yield per acre harvested are not available. In the case of fruit and hops the yields shown are per acre of bearing crops.

Persons Working on Holdings: Details are collected on the general farm census of persons working on rural holdings at 31 March. Persons working permanently full-time include all other than casual or seasonal workers and females engaged principally in domestic duties, children attending schools and other persons working only part-time. Casual or seasonal workers including contractors for shearing, fencing, etc., are shown as temporary employees.

Attention is drawn to the difficulty encountered in obtaining data on persons employed on a comparable basis from year to year. The difficulty applies mainly to females and arises because of the tendency of many farmers to include part-time family helpers as full-time workers in their returns.

Classification of Greasy Wool According to Quality: Statistics of greasy wool sold at auction according to the predominant quality of the wool are compiled by the Wool Statistical Service. The quality of the wool (expressed as 64s, 60s, 58s, etc.) is a measure of the fineness and texture of wool for spinning purposes. Broadly it means the maximum number of hanks (lengths of yarn each of 560 yards) which can be spun from 1 lb of combed wool. For instance, wool of 64s quality is of a fineness and texture which will produce 64 hanks from 1 lb of tops (combed wool) of that particular wool.

Livestock Slaughtered and Meat Production: Monthly returns are collected from principal slaughterers (abattoirs, meat works and bacon factories) and these, together with annual returns for all other slaughterers (the general census return from farms and a special return from other small slaughterers), provide the necessary data for compiling both monthly and annual estimates for all livestock slaughtered and meat production.

Livestock shown as slaughtered for human consumption exclude those subsequently condemned.

Statistics of meat production are recorded in terms of carcass (bone-in) weight. Edible offal other than kidneys and pigs' tongues are excluded.

Dairy Production: Total whole milk production has been estimated by the conversion of butter, cheese and cream production (both factory and farm) to milk equivalents together with estimates of fluid milk consumption which have been based on data supplied by the Milk Board.

Milk production per dairy cow has been based on the number of dairy cows which were in milk during any part of the year (the mean of the numbers of dairy cows dry and in milk at 31 March of the current year and at 31 March of the previous year has been taken for this purpose). It is lower than for cows kept entirely for milking purposes or for cows yielding during the greater part of the year.

Weights and Measures: Cereals, orchard fruits and certain other products are generally recorded in bushels. Whilst the weight of a bushel varies according to the nature of the product it is also subject to considerable variation for the individual products on account of such things as variety and method of packing. However, average bushel equivalent weights, as set out below may be used for the conversion of each of these products to pounds weight avoirdupois.

BUSHEL WEIGHTS
(lb per bushel)

Product	lb per bushel	Product	lb per bushel	Product	lb per bushel
Apples	42	Lucerne Seed	60	Peas in Pod (Green)	28
Apricots	48	Mustard Seed	50	Plums and Prunes	58
Barley	50	Nectarines	50	Quinces	42
Beans, French (Green)	20	Oats	40	Rye	60
Beans, Horse (Tic)	60	Peaches	45	Tares	60
Cherries	48	Pears	45	Tomatoes	48
Grass Seed	20	Peas, field (dry)	60	Wheat	60

NON-RURAL INDUSTRY STATISTICS

SCOPE

Forestry: The statistics included in this section relate to forest areas available for exploitation: the production of timber and other forest products; and employment details of the Forestry Department of Tasmania.

Fishing: Details relate to catch and effort statistics for boats licenced to fish Tasmanian waters, their crews and equipment; exports and imports of fish; and value of production of the industry.

Mining and Quarrying: Particulars comprise the production of minerals (mine and quarry products), assayed contents of ores and concentrates, employment in mines, costs of production, value of output and size classifications of mines and quarries.

SOURCES OF INFORMATION

Forestry: The source of most information, excepting that collected by this Bureau as part of the annual factory census (i.e. timber and other forest products), is the Forestry Department of Tasmania.

Fishing: In all cases the information is collected by the Fisheries Division of the Department of Agriculture and processed by the Bureau.

Mining and Quarrying: An annual census of mines and quarries is conducted by the Bureau and details are collected for calendar years. In the main table covering employment, materials used, salaries and wages etc., details are shown firstly for those mines and quarries employing four or more persons, to achieve uniformity with other Australian States, and secondly for all mines and quarries. Details relating to those tin mines with production valued at less than $1,000 are included only in value of output and value of production items.

Statistics relating to quantities of minerals produced are, in the main, obtained from the State Mines Department and are supplemented, where necessary, with data obtained from the annual census of mines and quarries and from the Commonwealth Bureau of Mineral Resources.

PERIOD COVERED

Unless otherwise stated, forestry and fishing statistics relate to the year ended 30 June, and mining and quarrying statistics to the year ended 31 December.

DEFINITIONS AND EXPLANATORY NOTES

Mining: For statistical purposes, the mining and quarrying industry is defined as including all mining and quarrying, and the recovering of minerals from ore dumps, tailings, etc; ore dressing and elementary smelting of metallic minerals (e.g. in the case of gold) when carried out at or near the mine are included. However, establishments primarily engaged in smelting and/or refining (including the smelting section of Mt Lyell), are omitted and are classified to the manufacturing industry (see Secondary Industries bulletin).

This definition differs from that of the state Mines Department which includes in its statistics the smelting operations carried out at Mt Lyell, and, in respect of minerals originating in Tasmania, refining at Risdon. For Mt Lyell, only those operations up to the point of production of copper concentrate are included in the Bureau's mining statistics, while smelting is included in factory statistics. Refining operations carried out at Risdon are also included in factory statistics.

Also included in the mining and quarrying industry are quarries operated by brickworks, cement works, etc., and those winning direct construction materials such as sand, gravel, building stone, and broken and crushed stone for road making, etc.

Forestry: As from 1965-66 statistics of forest areas are not comparable with those for earlier years. In 1966 the State Forestry Department adopted a Food and Agricultural Organisation recommendation that *potentially exploitable* forests be defined as 'Forests whose growth is too low to warrant industrial exploitation at present time or where transport costs to the nearest market are prohibitive'. It follows that *exploitable* forests are the exact opposite of this definition.

VALUE OF PRODUCTION

SCOPE

The data used are those concerning quantity of primary production (see page 4) together with information collected from various sources on prices realised in the principal markets for different products, the costs of marketing these products and the costs of certain materials used in their production.

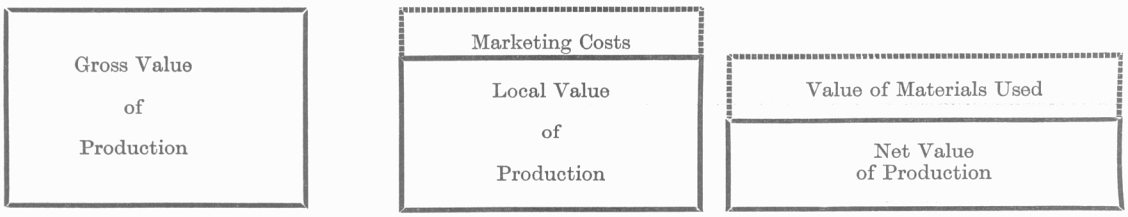

SOURCES OF INFORMATION

Price and cost data are obtained from statutory authorities (e.g. Dairy Produce Equalisation Committee), market reports, special returns collected from wholesalers, brokers, auctioneers, etc., annual factory returns (showing cost of raw material delivered to factory) and from overseas and interstate trade statistics.

PERIOD COVERED

The period covered is the same as stipulated for the quantitative information referred to on page 4 (i.e. in most cases the year ended 31 March).

DEFINITIONS AND EXPLANATORY NOTES

Gross Value of Production: This is the value placed on recorded production at the wholesale prices realised in the principal markets. In cases where primary products are consumed locally, or where they become raw material for a secondary industry, these points are presumed to be the principal market. Products sold interstate or overseas are valued at f.o.b. Tasmanian port prices. If exports are sold 'on consignment', prices received are converted to an f.o.b. basis.

Marketing Costs: These include freight, cost of containers, commission and other charges incurred in marketing.

Local Value of Production (i.e. gross production valued at place of production): This is gross value of production *less* marketing costs.

Value of Materials Used: These include power, power kerosene, petrol and other oils (as from 1958-59), seed used, fodder consumed by farm stock, fertilisers, dips and sprays and other selected costs of a similar nature.

Net Value of Production: This is local value of production *less* value of materials used in process of production. The net value of production exceeds the net return to producers since no deductions are made for depreciation, maintenance, interest on borrowed money, wages and a number of other production costs.

Unit Values: These have been calculated for principal rural products by dividing the total quantity produced into the total gross value of production for each product. They therefore represent weighted average 'prices' in all markets (including the farm itself where quantities are retained for farm use) for the product.

Government Subsidies and Bounties: Sudsidies and bounties paid by the State and Commonwealth Governments to primary industries, are in general, included in value of production.

Comparing or Combining Industries: Both gross and local values of primary production involve some duplication because they include the values of certain products as the final output of one primary industry and again as the raw material of another (e.g. hay from *agriculture* consumed by livestock under *pastoral* and *dairying*). Similarly, many materials consumed by primary industries are the products of secondary industries (e.g. fertilisers).

In calculating the Net Value of Production, the values of both primary and secondary products consumed by primary industries have been deducted and this process automatically eliminates duplication. It follows, therefore, that Net Value of Production should be used when comparing or combining values for individual primary industries and when comparing or combining values for primary and secondary industries.

CHANGED STATISTICAL DIVISIONS

Changes operative from 30 June 1966 affect the statistical division boundaries of the three southern statistical divisions, viz. South Central, Southern and South Eastern. Until 30 June 1966, the South Central division merely comprised the complete Local Government Areas of Hobart and Glenorchy. As from that date it was extended to include the complete municipality of Clarence and parts of the adjacent municipalities of New Norfolk, Brighton, Sorell and Kingborough. It was also renamned the Hobart Statistical Division.

The size of the Southern and South Eastern statistical divisions *was correspondingly diminished* by the areas absorbed by the new Hobart statistical division but they retained the same names. Care should be taken in comparing statistics for earlier years for these three divisions with figures for 1966–67 and later periods. Local Government Area boundaries are in no way affected by these changes.

The changed divisions and their composition are listed below:

Changed Divisions	Components (in terms of Local Government Areas)	Nature of Change
Hobart Statistical Division (replaces South Central Division and area greatly enlarged)	Hobart, Glenorchy, Clarence plus *part* of Brighton, Kingborough, New Norfolk and Sorell	South Central Division (Hobart and Glenorchy) absorbed and *part* of previous Southern and SE. Divisions incorporated.
South Eastern (name unchanged but area diminished)	Glamorgan, Green Ponds, Richmond, Spring Bay, plus *part* of Brighton and Sorell	Clarence plus *part* of Brighton and Sorell transferred to Hobart Division.
Southern (name unchanged but area diminished)	Bruny, Esperance, Huon, Port Cygnet, Tasman, plus *part* of Kingborough and New Norfolk	*Part* of Kingborough and New Norfolk transferred to Hobart Division.

In tables in this Bulletin, totals are shown for *complete* Local Government Areas but, in arriving at totals for the three Divisions above account is taken of partitioned areas (i.e. Brighton, Sorell, Kingborough and New Norfolk). Letter(s) following Local Government Areas in Hobart (H), South Eastern (SE.) and Southern (S) statistical divisions, indicate the division(s) in which each Local Government Area is situated.

1. LAND UTILISATION

LAND UTILISATION ON RURAL HOLDINGS—SUMMARY

Particulars	1960-61	1961-62	1962-63	1963-64	1964-65	1965-66	1966–67
Area (Acres)							
Area used for Crops (*a*)	195,699	222,089	234,379	243,807	226,676	242,350	242,512
Land Lying Fallow (*b*)	77,229	72,866	73,823	78,286	79,329	76,308	86,271
Area of Clovers and Grasses (other than Native) (*c*)	1,385,742	1,416,648	1,447,523	1,510,530	1,609,717	1,684,799	1,755,263
Other Land Used for Grazing	3,266,457	3,274,002	3,204,078	3,106,738	2,976,243	2,992,488	3,009,752
Balance of Holding	1,585,519	1,565,298	1,462,911	1,438,131	1,528,361	1,500,516	1,413,499
Total Area All Holdings	6,510,646	6,550,903	6,422,714	6,377,492	6,420,326	6,496,461	6,507,297
Proportion of Total Area (Per Cent)							
Area Used for Crops (*a*)	3.0	3.4	3.6	3.8	3.5	3.7	3.7
Land Lying Fallow (*b*)	1.2	1.1	1.2	1.2	1.2	1.2	1.3
Area of Clovers and Grasses (other than Native) (*c*)	21.3	21.6	22.5	23.7	25.1	25.9	27.0
Other Land Used for Grazing	50.1	50.0	49.9	48.7	46.4	46.1	46.3
Balance of Holding	24.4	23.9	22.8	22.6	23.8	23.1	21.7
Total Area of Holdings	100.0	100.0	100.0	100.0	100.0	100.0	100.0

(*a*) Includes orchards and small fruits but excludes area of clovers and grasses *cut* for hay, seed, silage, or green fodder.
(*b*) Excludes short or summer fallow.
(*c*) Includes area cut for hay, seed, silage, or green fodder which are treated as crops on page 9. For further details see pages 18 and 19.

(a) See notes on page 4 explaining decline in number of rural holdings.
(b) Includes orchards and small fruit but excludes areas of clovers and grasses *cut* for hay, seed, silage, or green fodder.
(c) Excludes short or summer fallow.
(d) Includes areas cut for hay, seed, silage, or green fodder which are classified as 'crops' in tables on other pages. Total area classified in this way is 204,619 acres.
(e) Area of holdings exceeds area of Local Government Area; where rural holding extends across a Local Government Area boundary the location of the homestead determines the Local Government Area to which the whole holding is allocated.

(*a*) Comprises hay: barley, 256 tons; wheaten, 215 tons; rye, 193 tons; lucerne, 4,021 tons; and grass and clover, 401,820 tons.
(*b*) Comprises, in total, 632 cwt clover seed and 9,062 cwt other grass seed; includes 2,008 cwt of seed harvested from areas sown to oats for grain.
(*c*) Not available separately but included in totals.
NOTE: F, if shown, indicates total failure.

YIELD PER ACRE OF CROPS BY LOCAL GOVERNMENT AREAS, SEASON 1966-67

NOTE: When the area under any crop in a Local Government Area or Statistical Division is less than 10 acres, the average yield is omitted.

(a) Orchards of all kinds, not just those producing apples, pears and apricots.
(b) Not available separately; included in totals.
NOTES: F, if shown, indicates total failure.
Where the number of trees (bearing and non-bearing combined) of any variety in a Local Government Area is less than 50, the figures have been omitted.

(a) House cows (in milk and dry) and heifers (one year and over) being kept primarily for own milk supply.

NOTE: Because of the amount of cross-breeding between dairy and beef breeds of cattle (in particular on dairy farms) the simple dissection of cattle into 'Dairy' and 'Beef' was discontinued as from 1964 and a classification of all cattle (other than bulls) according to usage adopted.

Although the new classification as shown above prevents a strict comparison for each individual item, a grouping of certain items in the following table, provides figures which are generally comparable with those for earlier years.

1966-67 ..	66,520	8,411	16,636	91,567	(d) 149,148	(e) 591

(a) Prior to 1953-54 includes milk used for making butter and cheese on farms.
(b) Prior to 1953-54 excludes milk used for making butter and cheese on farms.
(c) Average annual yields are based on the estimated number of dairy cows which were in milk at any part of the year. (The mean of the number of dairy cows at 31 March of the current year and at 31 March of the previous year are taken for this purpose.) Averages are therefore, lower than for cows which were yielding during the greater part of the year. The figures given should be treated as an index rather than an actual average quantity of milk produced per dairy cow.
(d) 'House' cows excluded as from 1963-64. See page 27.
(e) As a result of revised classifications of cattle adopted from 1963-64, the average annual yield per cow is not strictly comparable with the calculations made for previous years. See page 27.

(a) Fowls, ducks, turkeys and geese.

EGGS SET AND CHICKENS HATCHED

(Includes only farms setting 1,000 or more eggs for hatching.)

Description	1965-66		1966-67	
	Number ('000)	Proportion of Total (%)	Number ('000)	Proportion of Total (%)
Eggs Set During Year—Meat Strains	953	47.2	1,227	61.7
Egg Strains	1,067	52.8	761	38.3
Total Eggs Set	2,020	100.0	1,988	100.0
Chickens Hatched (*a*) During the Year and Intended to be Raised for:				
Chicken Meat— Meat Strains— Unsexed	582	52.5	833	67.7
Egg Strains (*b*)—Crossbred and other Cockerels	107	9.7	72	5.8
Egg Production—Egg Strains (*b*)—Pullets	372	33.6	273	22.2
Breeding— Meat Strains— Pullets	15	1.3	14	1.1
Cockerels	2	0.2	2	0.2
Egg Strains— Pullets	24	2.2	31	2.5
Cockerels	6	0.5	6	0.5
Total Chicks Hatched	1,108	100.0	1,231	100.0

(*a*) Excluding chicks destroyed.
(*b*) Egg strain chicks reported as 'unsexed' have been allocated equally between chicks for chicken meat and chicks for egg production.

CHICKENS HATCHED ACCORDING TO SIZE OF HATCHERY, 1966-67 (*a*)

Size of Hatchery (Eggs Set)	Hatcheries	Number of Chicks Hatched and Intended to be Raised for							Chicks Hatched (*c*)	
		Chicken Meat		Egg Production	Breeding					
					Meat Strains		Egg Strains			
		Meat Strains Unsexed	Egg Strains, X'bred & Other Cockerels (*b*)	Pullets (*b*)	Pullets	Cockerels	Pullets	Cockerels	Total	As proportion of Eggs Set
	no.	'000	'000	'000	'000	'000	'000	'000	'000	%
1,000 and under 10,000	16	3	7	14	..	..	2	1	26	50.2
10,000 and under 20,000	7	6	24	31	(*d*)	(*d*)	(*d*)	(*d*)	61	64.8
20,000 and under 50,000	7	..	36	65	..	..	12	2	115	50.1
50,000 and under 100,000	3	40	4	53	..	..	8	1	106	50.4
100,000 and over	3	783	2	111	14	2	9	1	923	65.9
Total	36	833	72	273	14	2	31	6	1,231	61.9

(*a*) In establishments which set 1,000 or more eggs (of both meat and egg strains).
(*b*) Egg strain chicks reported as 'unsexed' have been allocated equally between chicks for chicken meat and chicks for egg production.
(*c*) Excluding chicks destroyed.
(*d*) Less than half the unit shown.

1966-67	29,034	2,298	31,332	47,148	66.1	149,148	21.0

(*a*) Compiled from annual reports of the Artificial Breeding Board.
(*b*) Includes cows inseminated in Department of Agriculture's research programme.
(*c*) Percentage of cows not returning for further service within the 90-120 days following first service.
(*d*) As from 1964 excludes 'house cows'.
(*e*) Total number of cows served during year ended June expressed as a percentage of total dairy cows population at 31 March.

(*a*) Felling and carting, etc. (*b*) Sawing, peeling, slicing or pulping. (*c*) Silvicultural works, forest roads, bridges, etc.

FISHERIES—BLOCK AND ESTUARY NUMBERS

BLOCK NUMBERS

ESTUARY NUMBERS

Estuary	*Number*
D'Entrecasteaux Channel ..	9601
Tamar River	9602
Oyster Bay	9603
Norfolk Bay (incl. Frederick Henry Bay and Pittwater)	9604
Port Sorell	9605
George Bay	9606
Macquarie Harbour	9607

NOTES

Information relating to sea fisheries is derived from (i) monthly catch and effort returns and (ii) annual boat registrations returns submitted to the Fisheries Division of the Department of Agriculture and processed by the Bureau of Census and Statistics.

Details shown relate to fish, crustaceans and molluscs *landed* at Tasmanian ports irrespective of the waters in which they were caught.

Catch is shown as actual landed weight whether 'in the round', 'gutted and gilled', 'gutted and headed', 'filleted', etc.

Quantity figures in the first table in some cases are slightly greater than those shown in subsequent tables. This is due to the late receival of a small number of fishermen's returns. This necessitated their exclusion from detailed quarterly classifications, which are processed mechanically. This does not, however, invalidate the relationships suggested by the tables.

FISHERIES—SUMMARY

Total	531	(*h*)	5,701	(*h*)	25,162	(*h*)

(*a*) Selling value at mine or quarry (i.e. exclusive of transport costs from mine or quarry to point of sale). Value added by reduction of ores, concentrates, etc. to metals is excluded. Such processes are classified as 'factory' and included in secondary industries statistics.
(*b*) Includes clays, limestone, etc.
(*c*) Details for those tin mines with production valued at less than $1,000 at point of sale are excluded from all items except Value of Output and Value of Production.
(*d*) Number employed on last full working day of year shown.
(*e*) Exclusive of drawings by working proprietors.
(*f*) Net amount after deduction of miners' purchases of explosives from employees.
(*g*) Value of output at mine or quarry, less total costs other than labour shown above. No allowance has been made for depreciation or costs of maintenance.
(*h*) Not available.

MINERAL EXPLORATION

Introduction: The statistics in the following tables relating to exploration for minerals *other than petroleum* are derived from the annual census of mineral exploration undertaken by this Bureau. The first mineral exploration census was conducted for the year 1965. Information relating to *petroleum* exploration and development which is collected by the Bureau of Mineral Resources, Geology and Geophysics is not published here but may be obtained from the bulletin 'Mineral Exploration' issued by the Commonwealth Statistician.

Definition of 'Mineral Exploration (Other Than For Petroleum)': Mineral exploration consists of the search for, and/or appraisal of, new ore occurrences and known deposits of minerals (including extensions to deposits being worked) by geological, geophysical, geochemical and other methods (including drilling). Exploration for water is excluded. The construction of shafts and adits is included if primarily for exploration purposes. Excluded are mine development activities (which include the construction of drives, shafts, winzes, etc.) in underground mines and the preparation of quarrying sites for open-cut extraction (including overburden removal) carried out primarily for the purpose of commencing or extending mining and quarrying operations. Mine development activities (including mines under development) are included in the scope of the annual census of Mining and Quarrying, the results of which are published in this bulletin.

Scope of Mineral Exploration Census: (i) *Private exploration on current producing leases:* Relates to exploration carried out *on the producing lease* by privately operated mines currently producing or under development for production of minerals other than petroleum. Mines included in this section of the General Mineral Exploration census correspond closely to those in the annual census of Mining and Quarrying with the exception of a limited number of itinerant prospectors and small mines excluded from the collection. (ii) *Private exploration in other areas:* Relates to exploration carried out on areas covered by exploration licences, issued by the Department of Mines for exploration for minerals other than petroleum.

Definitions: (i) *Core Drilling:* Diamond drilling or any kind of drilling in which drill cores are taken. (ii) *Non-core Drilling:* Alluvial, percussion and other drilling in which drill cores are not taken. (iii) *Shaft:* Vertical or sloping access to underground mineral deposit. (iv) *Winze:* Internal shaft in mine, usually connecting two levels in plane or lode. (v) *Adit:* Horizontal or inclined access to underground mineral deposit, usually from a hillside. (vi) *Drive:* A tunnel or level in (or parallel to and near) a mineral deposit.

MINERAL EXPLORATION (OTHER THAN PETROLEUM)

Year	Expenditure (*a*)				Man Weeks Worked (*b*)

1966	1,691	1,179	2,870	905	2,572	7,364	9,936

(*a*) Expenditure whether charged as working expenses or capitalised.
(*b*) By the operator and his staff only (includes time spent on report writing and similar off-site activities associated with exploration).
(*c*) Includes geological etc., adits, shafts, etc.
(*d*) Amounts paid to drilling contractors, geological consultants, technical advisers, etc., for exploration services.
(*e*) Geologists, geophysicists, engineers, etc., engaged in exploration work.
(*f*) Drill operators, field hands, etc.

(*d*) Excludes depreciation and maintenance costs. (*e*) Local values.

DEFINITIONS AND EXPLANATORY NOTES

PRIMARY INDUSTRIES: The following are definitions of the terms used:

GROSS VALUE OF PRODUCTION: This is the value placed on recorded production at the wholesale prices realised in the principal markets. (In cases where primary products are consumed locally, or where they become raw material for a secondary industry, these points are presumed to be the principal markets.)

MARKETING COSTS: These include freight, cost of containers, commission and other charges incurred in marketing.

LOCAL VALUE OF PRODUCTION (i.e. gross production valued at place of production): This is ascertained by deducting Marketing Costs from Gross Value of Production.

VALUE OF MATERIALS USED IN PROCESS OF PRODUCTION: These include power, power kerosene, petrol and other oils, seed used, fodder consumed by farm stock, fertilisers, dips and sprays, and other selected costs of a similar nature. No allowance for power, power kerosene, petrol and other oils has been made for the years 1942–43 to 1957–58.

NET VALUE OF PRODUCTION: This is ascertained by deducting the Value of Materials Used in Process of Production from the Local Value of Production. No deductions have been made for depreciation or certain maintenance charges as particulars are not available.

GOVERNMENT SUBSIDIES AND BOUNTIES: Subsidies and bounties paid by the State and Commonwealth Governments to primary industries are, in general, included in value of production.

Gross and Local Values of primary production involve some duplication as they include the products of certain primary industries which are consumed as raw materials by other industries in the group (i.e. hay consumed by livestock). Furthermore, many of the materials consumed by primary industries are the products of secondary industry. However, duplication has been eliminated in calculating the Net Value of primary production by deducting the value of both primary and secondary products consumed by primary industries. Therefore, Net Value of primary production should be used when comparing or combining values for primary industries with those for secondary industries.

(a) No deduction made for the years 1949-50 to 1957-58 for costs of power, power kerosene, petrol and other oils.
(b) Profits arising from the 1939-45 War-time Wool Disposals Plan have been excluded both from years in which the wool was produced and years in which payment to woolgrowers was made.
(c) Local values.
(d) Gross values *excluding* Quarrying prior to 1952-53.

AVERAGE UNIT GROSS VALUE OF CROPS—TASMANIA

NOTE: *Unit Values* have been calculated for principal agricultural products by dividing the total quantity produced into the total gross value of production for each product. They there fore represent weighted average 'prices' in principal markets (including the farm itself where quantities are retained for farm use) for the product.

AGRICULTURAL, DAIRYING & PASTORAL STATISTICS—TASMANIA, SEASON 1966-67

This return is collected under the Commonwealth Census and Statistics Act 1905–49, and all occupiers to whom this form is supplied must complete and return it **WITHIN SEVEN DAYS** of receipt to Officer-in-Charge of the Police Station indicated below. **The return is strictly confidential** and under no circumstances will particulars supplied be disclosed to any other person or Government Department.

R. LAKIN,
Deputy Commonwealth Statistician

A.P.30

Police Number	NAME	Office use only	MUNICIPALITY
	ADDRESS		POLICE STATION

THIS DECLARATION MUST BE COMPLETED AND SIGNED

I, ... hereby certify that the particulars given on this return relate to my holding(s) situated in the Municipality of ..... and that they are to the best of my knowledge and belief complete and correct.

DATE ..... 1967 Signed ..... (Occupier, Manager or Accountant) Telephone No. .....

Total Area of Holding as shown on Previous Year's Return ..... **(acres)**

REASONS FOR ANY CHANGE IN AREA OF HOLDING SINCE MARCH, 1966

If you have sold or let any land since March, 1966

Area sold or let ..... **acres**

To ..... **(name)**

of ..... **(address)**

If you have acquired any land or lease since March, 1966

Area acquired ..... **acres**

From ..... **(name)**

of ..... **(address)**

TENANCY (*Land occupied by a tenant should be included in tenant's return, not owner's*)

If a portion of your land is occupied by a tenant for rural purposes, please give area so occupied ..... **acres**

Name of tenant ..... **Address** .....

1. AREA OF HOLDING AT 31st MARCH, 1967

		ACRES
Total Area of Holding, including Crown and other Leaseholds (To agree with Item 402 in section 7 on page 2)	014	

2. PERSONS WORKING ON HOLDING AT END OF MARCH 1967

(Exclude females mainly engaged in domestic duties or children attending school)

			MALES	FEMALES
PERMANENT FULL-TIME WORKERS	Owners, lessees, tenants or share-farmers	103		
	Relatives of owner, lessee, tenant or share-farmer over 14 years of age not receiving wages or salary	115		
	Employees, including managers and relatives working for wages or salary	127		
	TOTAL WORKING PERMANENTLY	139		
TEMPORARY WORKERS (Casual or seasonal)	Persons working **temporarily** on holding (on wages or contract) at end of March, 1967	141		

3. WAGES AND SALARIES PAID DURING YEAR ENDED 31st MARCH, 1967

(Include value of keep)

To Permanent (full-time) Employees	204	$ .00
To Seasonal and Casual Workers (including Payments to Contractors for *seasonal work*, e.g., for cultivation, harvesting, shearing, but *not for construction and development work* such as fencing, dam-making, clearing, &c.)	216	$ .00

4. RESIDENTS ON HOLDING

		MALES	FEMALES
Persons (of all ages) residing **permanently** on the holding at 31st March, 1967 (include female domestic workers, children, farm-workers and those temporarily absent, but exclude seasonal workers, visitors, guests, inmates of schools and institutions)	406		

5. MACHINERY ON HOLDING AT 31st MARCH, 1967

(Include only serviceable machinery owned or being purchased). Machinery which is jointly owned should be included in the return of the person on whose property it is located at 31st March.

		02 NUMBER
Milking Machines—No. of Machines	016	
No. of Units	028	
Shearing Machines—No. of Machines	030	
No. of Stands	042	
Tractors—Wheeled	055	
Crawler	067	
Fertilizer Distributors and Broadcasters—Rotary	079	
Direct Drop	081	
Additional particulars required in Section 6 below → Headers, Strippers and Other Grain and Seed Harvesters	105	
Grain Drills—Combine Type	117	
Other Types	129	
Pick-up Balers	168	
Forage Harvesters (all types)	170	
Rotary Hoes and Rotary Tillers—		
Self-contained Power Unit Type	182	
Tractor-Mounted or Trailing Type	194	
Potato Planters (all types)	257	
Potato Diggers (all sizes)	269	
Hammer Mills (incl. Roughage Mills)	307	
Do not include Lawn Mowers → Mowers—Power Drive	319	
Ground Drive	321	
Hay Rakes—Side Delivery	408	
Buck	410	
Dump	422	
Irrigation Plants—Power Driven	459	
Spraying Plants—Power Driven	461	

		03	Trailing Type (Tractor or Horse-drawn)	Tractor-Mounted Type
OTHER CULTIVATING IMPLEMENTS—				
Include disc ploughs, disc cultivators, disc tillers, disc harrows → Mouldboard Ploughs		018		
Disc Implements		020		
Tyne Implements—				
(*a*) Chisel Ploughs, Scarifiers, Cultivators, Rippers		032		
(*b*) Tyne Harrows—Number of Sections		057		
Cultivating Implements Not Included Above (please specify)				

6. HEADERS, STRIPPERS AND OTHER GRAIN AND SEED HARVESTERS

(exclude Reapers, Binders, Specialised Clover Harvesters and Forage Harvesters)

USE A SEPARATE LINE FOR EACH MACHINE ON HOLDING

03	SPECIFY WHETHER— (i) Self-Propelled (ii) Tractor or Horse Drawn	SPECIFY WHETHER— (i) Open Front (ii) Comb Front	Width of Cut (in feet)	Age (in years)
309				
311				

7. LAND UTILIZATION 1966-67

To agree with Item 993 below →

To agree with Item 197 in Section 13 on page 3 →

	04	ACRES
Area used for Crops during 1966–67 (including orchards, small fruits, vegetables, &c.)	010	
Land Lying Fallow during Season (excluding short or summer fallow)	109	
Area under Clovers and Grasses (other than Native)	200	
Other Land used for Grazing	376	
Balance of Holding	388	
TOTAL AREA OF HOLDING (to agree with Item 014 on page 1)	402	

8. CROPS

(see instructions on page 3)

If harvesting incomplete, please show expected production. Do not include crops planted just prior to 31st March, 1967 for harvesting in 1967–68.

Include all other crops not specified opposite, used entirely for GREEN FODDER (e.g., Kale, Millet, &c.) except Clovers and Grasses (see Section 13 on page 3) →

To agree with Item 997 below →

To agree with Total of Section 11 below (item 999) →

The number of fruit trees and production of fruit will be obtained by means of a later collection →

To agree with Item 599 in Section 12 on page 3 →

To agree with Item 010 above →

SPECIAL INSTRUCTIONS ON CROPS

Season. Generally, all crops grown in the year from 1st April to 31st March are to be included but some crops at 31st March will be practically matured but not yet harvested; in the case of such crops, please estimate probable yield and include it in the total. (Special collections will be made later in the case of orchard fruit and potato yields).

Total Production. Should include all crops whether sold directly, delivered to marketing boards, retained for seed, consumed or stored on the holding or disposed of by gift, barter or delivery to the holder of a lien over the crop.

Crops for Grain or Hay. A crop harvested for grain or hay should *not* be entered again as a green fodder crop.

Failure of Crop. (1) If the failure is total, show area sown and write "F" in lieu of production figure; if failure is partial, show actual production figure. If a crop originally intended for grain was subsequently fed off entirely, still show the area under grain and not under green fodder.

(2) Crops ploughed in or dug in because they could not be marketed should be included as failures. However, green crops grown for ploughing in as green manure should be included under "All Other Crops", showing area only.

Double Cropping. (1) If two crops are grown on the same area at different times during the year, such area must be included twice in the area sown column.

(2) If two crops are grown together at the same time on the same area, then the area should be counted once only and apportioned between the two crops according to their relative importance.

(3) In the case of crops like lucerne which may be cut more than once, include the area once only but add all mowings to get the production figure.

LIVESTOCK

Please record all livestock belonging to the holding on 31st March, including those owned by you, share-farmers or members of the family, as well as those on agistment elsewhere.

12. SMALL FRUITS

(Show production in lb., not cwt. or tons).

	12	AREA Non-Bearing (acres)	AREA Bearing (acres)	PRODUCTION (lb.)

31. HORSES,

At 31st March, 1967

Total Number of Horses on Holding	644	

METEOROLOGY

(Source: Bureau of Meteorology, Regional Office, Hobart, from which further detailed information may be obtained on application.)

SUMMARY OF METEOROLOGICAL CONDITIONS, 1967

The entire State had below normal rainfall during 1967, the largest departure from normal being recorded in the Midlands (63 per cent of normal). The highest percentage of normal rainfall was recorded in the South East District and on Flinders Island (both 86 per cent), the remaining areas of the State having between 65 and 80 percent of normal rainfall.

The actual falls ranged between 100 inches at inland stations on the West Coast to 13 inches around Hamilton in the Derwent Valley and in the Campbell Town-Ross area of the Midlands.

Mean temperatures were generally below normal in January but were well above normal in February despite cold snaps in the middle and at the end of the month. This above normal trend continued until the end of August. Below average temperatures were recorded in the early part of September but they were counteracted to a certain extent by above normal figures in the later part of the month, thus producing mean temperatures only slightly different from normal for the month. During October temperatures were slightly above in most areas; however, above average temperatures were recorded only in the North East and North West in November and were below average elsewhere. This trend continued in December when temperatures were considerably below normal over most areas of the State.

Widespread storms occurred on 16 January in Southern, Western and Northern districts and hail caused slight damage to fruit. Light to moderate hail storms were also recorded on 30 October over a wide area.

Some light to moderate snow falls were recorded, mainly in Highland areas, during the year, the most notable occurring on 25 April, when the snowline was down to 800 feet in the South.

Light flooding was recorded in the South Esk and Macquarie River systems on 11, 14 and 17 July with some disruption of road communications. Extensive flooding of the South Esk, St Pauls, Macquarie, Mersey and Lake River systems was recorded from 20 to 23 August with some damage to highways and railway facilities.

The disastrous bushfires of 7 February must rate as the most notable meteorological phenomenon of 1967. The fires were confined almost entirely to the South East district but were easily the worst Tasmania has ever experienced. The history of the fires goes back to the spring of 1966, when heavy falls of rain produced good spring growth. From the end of October, dry conditions prevailed and most grass and pastures were completely dried off by February. The very high temperature, low humidity and strong north westerly winds of 7 February, when associated with the amount of dry fuel available made the southern part of the State extremely vulnerable to fires such as those experienced. Over 1,000 square miles of country were burnt, more than 1,300 dwellings were destroyed and total damage was estimated to be in excess of $25 million.

TIMES OF PLANTING AND HARVESTING PRINCIPAL CROPS, AND OF SHEARING, LAMBING, etc., TASMANIA

Crop	Time of Planting	Harvesting
Cereals—		
Barley	September to November	February to March
Oats	March to October	November to March
Wheat	May to September	January to February
Vegetables—		
Beans, French and Runner	September to October	February to March
Peas, Green	August to October	December to February
Potatoes—Early	June to August	December to February
Late	September to November	February to October
Tomatoes	October to November	February to April
Other Crops—		
Hops	..	February to April
Field Peas	July to September	January to April
Fruit—		
Apples	..	February to May
Apricots	..	January to February
Peaches	..	January to February
Pears	..	February to April
Plums	..	January to February
Raspberries	..	December to January
Currants	..	January to February
Gooseberries	..	November to December
Strawberries	..	November to January

Shearing	October to December
Lambing—	
Spring	August to October
Autumn and Winter	March to July
Slaughtering for Export—	
Lambs (*a*)	November to March

(*a*) The period shown refers to that in which the seasonal activity is more pronounced.

NOTE: Variations from the above periods occur owing to variety of seed, district, seasonal conditions and zoning of shearing.

Persons Engaged, Occupational Status and Work on which Engaged, 1960 to 1967	60
Classification (According to Value) of New Houses Completed, 1966–67	61

GENERAL NOTES

Values in this publication are expressed in dollars ($) and/or cents (c) Australian.

Where figures have been rounded in this publication any discrepancies between totals and sums of components are due to rounding.

1. MANUFACTURING STATISTICS

SCOPE

For the purposes of the Statistics included in the first part of this bulletin a 'factory' is defined as an establishment either where power (other than manual) is used or in which four or more persons are employed in any manufacturing process. *It should be noted that details relating to small establishments not classified for statistical purposes as factories are not included in the figures shown herein.*

The statistics relate to: number and size of factories; number of persons employed, in various categories; salaries and wages paid; book value of land, buildings, plant and machinery (not capital invested); value of materials, containers, repairs and replacements, power, fuel and light (including water and lubricating oil) used in factories; value of output; value of production; quantities and values of fuel used; quantities and values of principal materials used and articles produced; value of additions and replacements to, and depreciation allowed on, land and buildings, and plant and machinery; rated horse-power of engines ordinarily in use and those in reserve or idle.

The returns from which these statistics are compiled are obtained from manufacturers; they are not intended to show a complete record of the income or expenditure of factories nor to show the profits or losses of factories collectively or individually. A specimen copy of the factory census form is shown on pages 49 and 50 and a copy of the instructions issued to informants is included on pages 51 and 52.

The period covered by the statistics in this Bulletin, is, in the main, the twelve months ended 30 June. In cases where some other accounting period is used it is permissible to complete the census schedule for that accounting period. These cases, however, are comparatively few and their inclusion in no way impairs the comparability of the statistics in the year under review or from year to year.

SOURCE

The information is compiled annually from returns received in respect of approximately 1,800 factories operating throughout the State.

DEFINITIONS

Average Number of Persons Employed: All persons employed in the *manufacturing* activities of a factory are counted as factory employees. The figures relating to employment, therefore, *exclude* all those engaged in selling and distribution, such as salesmen, travellers, collectors, carters engaged solely on outward delivery of manufactured goods, and retailing storemen. The figures, however, do include proprietors who work in their own businesses, as well as 'out-workers'.

The average number of persons employed is quoted on two different bases: the average *during the period of operation* and the average *over the whole year*. Of these, the former is the average number of persons employed in each factory during its period of operation (whether the whole or only part of the year). This average is used only for classifications according to number of persons employed. The latter, which is used in all other instances, is calculated by reducing the average number working in the factories (irrespective of period of operation) to the equivalent number working for a full year.

Working Proprietors are included in all employment figures other than those relating to monthly employment and age dissections, but salaries and wages paid in all cases exclude drawings by working proprietors.

Value of Output: The value of factory output is the value of the goods manufactured or their value after passing through the particular process of manufacture and includes the amount received for repair work, work done on commission and receipts for other factory work. The basis of valuation of the output is the selling value of the goods at the factory, exclusive of all delivery costs and charges and excise duties, but inclusive of bounty and subsidy payments to the manufacturer of the finished article.

Value of Production: The value of production is the value added to raw materials by the process of manufacture. It is calculated by deducting from the value of factory output the value (at the factory) of the materials used, containers and packing, power, fuel and light used, tools replaced, and materials used in repairs to plant (but not depreciation charges).

In the process of manufacture, many goods are treated in several industries, the output of one becoming the raw materials of another, so that such commodities are counted more than once in the aggregate value of output and of raw materials. Examples are flour passing from the mills to bakeries, metals from the smelters which become raw materials in establishments concerned in the production of metal goods, and timber from the sawmills used in furniture factories and in joinery. On the other hand, the aggregate value of production is assessed without duplication, the value added by each industry being taken into account once only. For this reason the value of production, and not the value of the output, is used as a measure of activity in the manufacturing industries as a whole or for comparisons between industries.

There are many miscellaneous expenses, such as maintenance of buildings, etc., depreciation, workers' compensation insurance, other insurances, pay-roll tax, income tax, advertising, interest on borrowed money, bad debts and many other sundry charges, which are not specified on the factory form and therefore not taken into account in determining value of production. Consequently it must not be inferred that when wages and salaries are deducted from the value of the production, the whole of the surplus is available for interest and profits.

Rated Horse-power of Engines Used: Statistics of power used in factories other than Central Electric Stations relate to the 'rated horse-power' of engines ordinarily in use and of engines in reserve or idle, omitting obsolete engines. In the case of Central Electric Stations, the figures refer to the 'rated capacity' of engines and generators installed.

CLASSIFICATION OF FACTORIES

On pages 6 and 7 is the complete factory classification list which, apart from very minor amendments, has been used uniformly in all States since 1945-46. The statistical tables on subsequent pages, where the titles of any sub-classes are not shown, indicate that there are no factories in these sub-classes in Tasmania. Also to conserve space, abbreviated titles have been used for some sub-classes.

Statistics for some sub-classes are not available for separate publication because of the limited number of factories in the sub-class; also in some instances publication of State details is not possible because of considerations relating to the publication of Australian totals. However, all suppressed sub-class details are included in the appropriate class totals.

FACTORY CLASSIFICATION—COMPLETE LIST OF CLASSES AND SUB-CLASSES

Class I: Treatment of Non-Metalliferous Mine and Quarry Products

1. Coke Works
2. Briquetting and Pulverised Coal
3. Carbide
4. Lime, Plaster of Paris, Asphalt
5. Fibrous Plaster and Products
6. Marble, Slate, etc.
7. Cement, Portland
8. Asbestos Cement Sheets and Mouldings
9. Other Cement Goods
10. Other

Class II: Bricks, Pottery, Glass, etc.

1. Bricks and Tiles
2. Earthenware, China, Porcelain, Terra Cotta
3. Glass (other than Bottles)
4. Glass Bottles
5. Other

Class III: Chemicals, Dyes, Explosives, Paints, Oils, Grease

1. Industrial and Heavy Chemicals and Acids
2. Pharmaceutical and Toilet Preparations
3. Explosives (including Fireworks)
4. Whitelead, Paints, Varnishes
5. Oils, Vegetable
6. Oils, Mineral
7. Oils, Animal
8. Boiling Down, Tallow Refining
9. Soap and Candles
10. Chemical Fertilisers
11. Inks, Polishes, etc.
12. Matches
13. Other

Class IV: Industrial Metals, Machines, Conveyances

1. Smelting, Converting, Refining, Rolling of Iron and Steel
2. Foundries (Ferrous)
3. Plant, Equipment and Machinery, including Machine Tools
4. Other Engineering
5. Extracting and Refining of other Metals; Alloys
6. Electrical Machinery, Cables and Apparatus

Construction and Repair of Vehicles:

Tramcars and Railway Rolling Stock:

7. Government and Municipal
8. Other

Motor Vehicles:

9. Construction and Assembly
10. Repairs
11. Motor Bodies
12. Horse Drawn Vehicles
13. Motor Accessories
14. Aircraft
15. Cycles, Foot and Hand Driven, and Accessories
16. Other

Ship and Boat Building and Repairing, Marine Engineering:

17. Government
18. Other

19. Cutlery and Small Hand Tools
20. Agricultural Machines and Implements

Non-Ferrous Metals:

21. Rolling and Extrusion
22. Founding, Casting, etc.

24. Sheet Metal Working, Pressing and Stamping
25. Pipes, Tubes and Fittings: Ferrous
26. Wire and Wire Working (including Nails)
27. Stoves, Ovens and Ranges
28. Gas Fittings and Meters
29. Lead Mills
30. Sewing Machines
31. Arms, Ammunition (excluding Explosives)
32. Wireless and Amplifying Apparatus
33. Other Metal Works

Class V: Precious Metals, Jewellery, Plate

1. Jewellery
2. Watches and Clocks (including Repairs)
3. Electroplating (Gold, Silver, Chromium, etc.)

Class VI: Textiles and Textile Goods (excluding Clothing other than Knitted)

1. Cotton Ginning
2. Cotton Spinning and Weaving
3. Wool: Carding, Spinning, Weaving
4. Hosiery and Other Knitted Goods
5. Silk, Natural
6. Rayon, Nylon and Other Synthetic Fibres
7. Flax Mills
8. Rope and Cordage
9. Canvas Goods, Tents, Tarpaulins, etc.
10. Bags and Sacks
11. Textile Dyeing, Printing and Finishing
12. Other

Class VII: Skins and Leather (not Clothing or Footwear)

Furs, Skins, Leather:

1. Furriers and Fur Dressing
2. Woolscouring and Fellmongery
3. Tanning, Currying and Leather Dressing

Saddlery, Harness, Bags, Trunks and Other Goods of Leather and Leather Substitutes:

4. Saddlery, Harness and Whips
5. Machine Belting (Leather or Other)
6. Bags, Trunks and Other Goods of Leather, and Leather Substitutes

Class VIII: Clothing (except Knitted)

1. Tailoring and Ready-made Clothing
2. Waterproof and Oilskin Clothing
3. Dressmaking, Hemstitching
4. Millinery
5. Shirts, Collars, Underclothing
6. Foundation Garments
7. Handkerchiefs, Ties, Scarves
8. Hats and Caps
9. Gloves
10. Boots and Shoes (not Rubber)
11. Boot and Shoe Repairing
12. Boot and Shoe Accessories
13. Umbrellas and Walking Sticks
14. Dyeworks and Cleaning (including Renovating and Repairing)
15. Other

Class IX: Food, Drink and Tobacco

1. Flour Milling
2. Cereal Foods and Starch
3. Animal and Bird Foods
4. Chaffcutting and Corncrushing
5. Bakeries (including Cakes and Pastry)
6. Biscuits
7. Sugar Mills
8. Sugar Refining
9. Confectionery (including Chocolate and Icing Sugar)
10. Jam, Fruit and Vegetable Canning
11. Pickles, Sauces, Vinegar
12. Bacon Curing
13. Butter Factories
14. Cheese Factories
15. Condensed and Dried Milk Factories
16. Margarine
17. Meat and Fish Preserving
18. Condiments, Coffee, Spices
19. Ice and Refrigerating
20. Salt
21. Aerated Waters, Cordials, etc.
22. Breweries
23. Distilleries
24. Winemaking
25. Cider and Perry
26. Malting
27. Bottling
28. Tobacco, Cigars, Cigarettes, Snuff
29. Dehydrated Fruit and Vegetables
30. Ice Cream
31. Sausage Skins
32. Arrowroot
33. Other

FACTORY CLASSIFICATION—COMPLETE LIST OF CLASSES AND SUB-CLASSES—*Continued*

Class X: Sawmills, Joinery Works, Boxes and Cases, Woodturning and Woodcarving

1. Sawmills
2. Plywood Mills (including Veneers)
3. Bark Mills
4. Joinery
5. Cooperage
6. Boxes and Cases
7. Woodturning, Woodcarving, etc.
8. Basketware and Wickerware, (including Seagrass and Bamboo Furniture)
9. Perambulators (including Pushers and Strollers)
10. Wall and Ceiling Boards (not Plaster or Cement)
11. Other

Class XI: Furniture of Wood, Bedding, etc.

1. Cabinet and Furniture Making (including Billiard Tables and Upholstery)
2. Bedding and Mattresses (not Wire)
3. Furnishing Drapery
4. Picture Frames
5. Blinds

Class XII: Paper, Stationery, Printing, Bookbinding, etc.

1. Newspapers and Periodicals
2. Printing, Government
3. Printing, General, including Bookbinding
4. Manufactured Stationery
5. Stereotyping, Electrotyping
6. Process and Photo Engraving
7. Cardboard Boxes, Cartons and Containers
8. Paper Bags
9. Paper Making
10. Pencils, Penholders, Chalks, Crayons
11. Other

Class XIII: Rubber

1. Rubber Goods (including Tyres Made)
2. Tyre Retreading and Repairing

Class XIV: Musical Instruments

1. Gramophones and Gramophone Records
2. Pianos, Piano Players, Organs
3. Other

Class XV: Miscellaneous Products

1. Linoleum, Leathercloth and Oilcloth, etc.
2. Bone, Horn, Ivory and Shell
3. Plastic Moulding and Products
4. Brooms and Brushes
5. Optical Instruments and Appliances
6. Surgical and Other Scientific Instruments and Appliances
7. Photographic Material (including Developing and Printing)
8. Toys, Games and Sports Requisites
9. Artificial Flowers
10. Other

Class XVI: Heat, Light and Power

Electric Light and Power:

1. Government
2. Local Authority
3. Companies

Gasworks:

4. Government
5. Local Authority
6. Companies

CHANGES IN STATISTICAL DIVISIONS AND URBAN AREAS

Changes, operative from 30 June 1966, were made to the Statistical Divisions in the southern part of Tasmania. Their effect is to enlarge and rename the Statistical Division containing Hobart and Glenorchy, and to correspondingly diminish the area of the adjacent Southern and SE. Statistical Divisions. Changes, operative from the same date, were also made in the boundaries of principal urban areas. Details are shown below and illustrated in the map on page 9.

Because it has not been possible to revise figures for years prior to 1966-67 to accord with the new boundaries, care should be taken in comparing statistics for the areas affected before and after the change.

Statistical Divisions

Whilst the enlarged Division containing Hobart and Glenorchy has been *renamed*, the diminished Southern and South Eastern Divisions *retain the same name*. Care should be taken in comparing these Divisions' figures for earlier years with figures for 1966-67 and later periods. The changed Divisions and their composition are listed below:

CHANGED STATISTICAL DIVISIONS

Changed Divisions	New Components (in terms of Local Government Areas)	Nature of Change
Hobart Statistical Division (replaces South Central Division and area greatly enlarged)	Hobart, Glenorchy, Clarence plus *part* of Brighton, Kingborough, New Norfolk and Sorell	South Central Division (Hobart and Glenorchy) absorbed and *part* of previous Southern and SE. Divisions incorporated
South Eastern (name unchanged but area diminished)	Glamorgan, Green Ponds, Richmond, Spring Bay, plus *part* of Brighton and Sorell	Clarence plus *part* of Brighton and Sorell transferred to Hobart Division
Southern (name unchanged but area diminished)	Bruny, Esperance, Huon, Port Cygnet, Tasman, plus *part* of Kingborough and New Norfolk	*Part* of Kingborough and New Norfolk transferred to Hobart Division

In tables, totals are shown for complete Local Government Areas but, in arriving at totals for the three Divisions above, account is taken of partitioned areas (i.e. Brighton, Sorell, Kingborough and New Norfolk).

Hobart Metropolitan Area

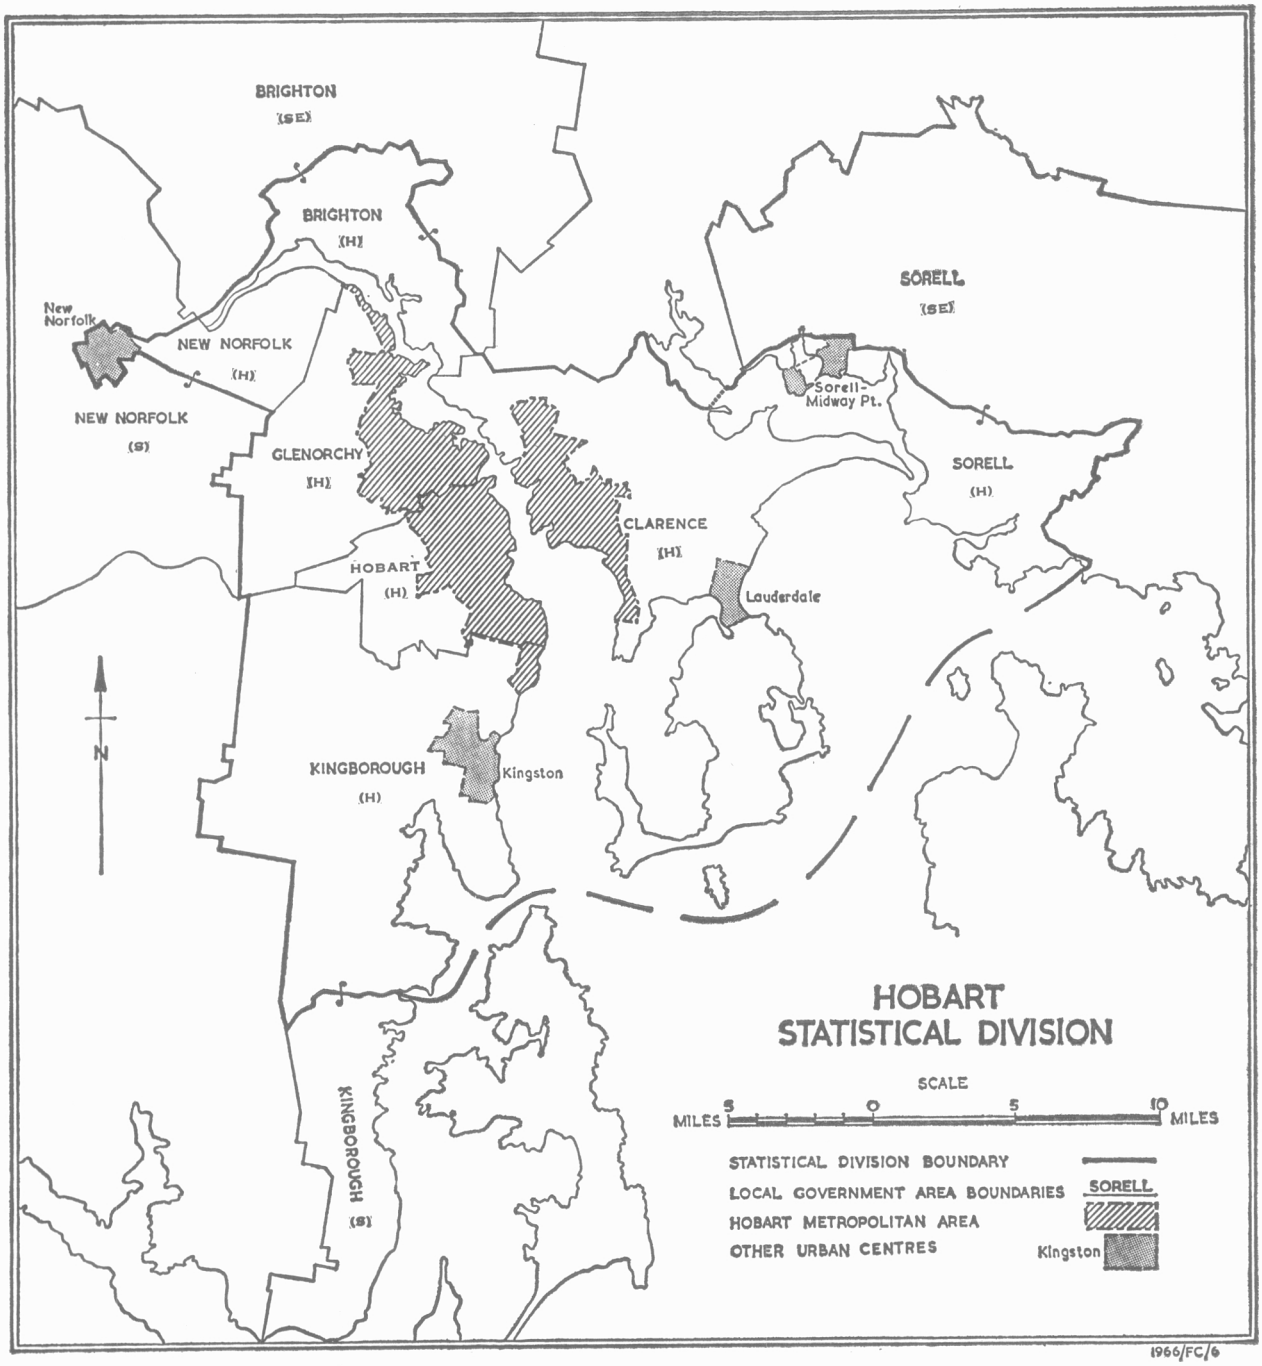

From 30 June 1966, this replaces the previous 'Hobart and Suburbs' and includes only the *continuous* area of urban development (based on Australia-wide density criteria); thus rural parts of Hobart and Glenorchy and the suburbs of Kingston and Blackmans Bay are now excluded. The Hobart Metropolitan Area includes the urban portions of Hobart City, Glenorchy City, Taroona south to the Shot Tower and the eastern suburbs from Risdon Vale south to Tranmere.

Urban Launceston

Although defined as the area of continuous development, Urban Launceston differs little from the previous Launceston and Suburbs. Urban Launceston includes the City of Launceston plus adjacent suburban portions of the municipalities of Beaconsfield, St Leonards, Westbury, Lilydale and Evandale.

The following shows the make-up of the Hobart Statistical Division, composed of 3 whole Local Government Areas and parts of 4 others. The letters next to the name of each Local Government Area on the map below indicate which municipalities have been partitioned, and the effect of this on the South Eastern and Southern Divisions.

Local Government Area	Statistical Division
Hobart	Hobart
Glenorchy	Hobart
Clarence	Hobart
Brighton	South Eastern and Hobart
Sorell	South Eastern and Hobart
Kingborough	Southern and Hobart
New Norfolk	Southern and Hobart

NOTE: The following abbreviations for statistical divisions are used in the map above and in Local Government Area tables throughout the Bulletin: (H)=Hobart Statistical Division; (SE)=South Eastern Statistical Division; and (S)=Southern Statistical Division.

NUMBER OF FACTORIES, PERSONS EMPLOYED AND WAGES PAID—SUMMARY

Year	Factories	Persons Employed (*a*) (Incl. Working Proprietors)			Salaries and Wages Paid (Excluding Drawings of Working Proprietors)

Central Electric Stations	..	820	1,211,360	..	1,212,180	..	..

(a) Excludes motors driven by electricity of own generation.
(b) Includes all electric motors in reserve or idle.
(c) Excludes central electric stations (which have been a component of Class XVI in all previous tables).

MOTORS AND ENGINES ORDINARILY IN USE EMPLOYED TO DRIVE MACHINERY (a)—SUMMARY

(Rated Horse-power)

Class of Industry	1962–63	1963–64	1964–65	1965–66	1966-67
I. Treatment of Non-Metalliferous Mine and Quarry Products	21,029	21,292	21,550	21,441	21,787
II. Bricks, Pottery, Glass, etc.	3,067	3,341	3,733	4,143	3,735
III. Chemicals, Paints, Oils, etc.	15,946	17,200	18,287	20,015	20,457
IV. Industrial Metals, Machines, etc.	63,475	67,663	67,431	66,355	67,049
V. Precious Metals, Jewellery, Plate	97	96	103	101	131
VI. Textiles and Textile Goods (excl. Clothing Other than Knitted)	9,851	10,350	10,928	11,350	12,054
VII. Skins and Leather (not Clothing or Footwear)	518	507	507	506	485
VIII. Clothing (except Knitted)	831	812	871	898	935
IX. Food, Drink and Tobacco	28,538	28,573	29,422	32,491	35,157
X. Sawmills, Joinery, etc.	48,856	53,284	55,190	58,026	59,709
XI. Furniture of Wood, Bedding, etc.	1,598	1,589	1,533	1,579	1,967
XII. Paper, Stationery, Printing, etc.	107,996	109,113	110,709	111,966	115,497
XIII. Rubber	546	510	496	552	551
XV. Miscellaneous Products	318	230	306	481	456
Total Classes I to XV	302,666	314,560	321,066	329,904	339,970
XVI. Heat, Light and Power (a)	76	76	124	126	126
Total All Classes	302,742	314,636	321,190	330,030	340,096

(a) See notes (a) and (c) above table for exclusions.

MOTORS AND ENGINES EMPLOYED TO DRIVE MACHINERY (*a*)—SUMMARY

(Rated Horse-power)

Year	Ordinarily in Use						In Reserve or Idle (excluding Obsolete Engines) (*c*)
	Steam	Internal Combustion	Water	Motors Driven by Purchased Electricity	Total Without Duplication (*b*)	Motors Driven by Electricity of Own Generation	
1957-58 ..	1,553	9,764	192	238,533	250,042	357	36,268
1958-59 ..	1,396	10,371	192	241,474	253,433	36	35,371
1959-60 ..	1,209	11,742	192	251,960	265,103	19	37,851
1960-61 ..	1,133	10,863	192	268,019	280,207	16	37,417
1961-62 ..	1,069	10,902	192	269,580	281,743	..	40,439
1962-63 ..	1,040	11,504	..	290,198	302,742	273	43,298
1963-64 ..	612	11,747	..	302,277	314,636	281	46,830
1964-65 ..	553	11,998	..	308,639	321,190	280	47,504
1965-66 ..	658	10,185	..	319,187	330,030	689	49,419
1966-67 ..	1,010	9,625	..	329,461	340,096	668	50,999

(*a*) Excludes central electric stations.
(*b*) Excludes motors driven by electricity of own generation.
(*c*) Includes all electric motors in reserve or idle.

CENTRAL ELECTRIC STATIONS: GENERATORS INSTALLED—SUMMARY

Description		1962-63	1963-64	1964-65	1965-66	1966-67
Kilowatt Capacity—						
Total Installed	kW	628,530	767,990	818,990	819,176	860,710
Effective Capacity	kW	625,700	765,160	816,160	816,290	857,790
Maximum Load	kW	560,619	576,604	597,044	634,338	631,250
Horse-power Equivalent—						
Total Installed	hp	884,934	1,078,034	1,149,634	1,150,874	1,212,180
Effective Capacity	hp	879,914	1,072,970	1,144,570	1,145,740	1,207,030
Maximum Load	hp	778,276	800,477	828,870	880,668	876,352

GOVERNMENT AND NON-GOVERNMENT FACTORIES, 1966–67

Particulars		Government Factories	Non-Government Factories	Total
Number of Factories		79	1,692	1,771
Average Employment (*a*)—				
Males		2,596	25,768	28,364
Females		65	6,450	6,515
Salaries and Wages Paid (*b*)—				
Males	$,000	7,116	73,569	80,685
Females	$'000	85	9,986	10,071
Cost of Materials Used	$'000	6,519	194,508	201,027
Other Specified Costs of Production (*c*)	$'000	1,364	41,002	42,366
Value of Output	$'000	32,888	405,076	437,964
Value of Production (*d*)	$'000	25,006	169,566	194,571
Value at 30 June of Land and Buildings (*e*)	$'000	(*f*) 149,784	84,198	(*f*) 233,983
Value at 30 June of Plant and Machinery (*e*) ..	$'000	50,499	118,660	169,159

(*a*) Average *whole* year, including working proprietors. See explanatory note, page 5.
(*b*) Excludes amounts drawn by working proprietors.
(*c*) Comprises cost of power, fuel and light, water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(*d*) Value of output less specified costs of production, other than labour.
(*e*) Includes estimated value of *rented* land, buildings, plant and machinery.
(*f*) Includes value of dams, flumes, earth works, etc. ancillary to production of electricity from water.

General Note: Letter(s) following Local Government Areas in Hobart (H), South Eastern (SE) and Southern (S) Statistical Divisions indicate division(s) in which L.G.A. is situated.

(*a*) Average for *whole* year, including working proprietors. See explanatory note, page 5.
(*b*) Excludes amounts drawn by working proprietors.
(*c*) Includes cost of water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(*d*) Value of output less specified costs of production, other than labour.
(*e*) Includes estimated value for *rented* land, buildings, plant and machinery.
(*f*) Not available for publication.
(*g*) See notes, pages 8 and 9.

General Note: Letter(s) following Local Government Areas in Hobart (H), South Eastern (SE) and Southern (S) Statistical Divisions indicate division(s) in which each L.G.A. is situated.

(*a*) Excludes statistics of plywood mills except for details of logs sawn and sawn timber produced.
(*b*) Average *whole* year, including working proprietors. Excludes men engaged in felling, etc., and carting logs to mill.
(*c*) Excludes amounts drawn by working proprietors and amounts paid to workers engaged in felling, etc., and carting logs to mill.
(*d*) Represents principally value of logs sawn, peeled or sliced, but also includes value of minor items such as nails, tie-wire, etc., used.
(*e*) Includes cost of water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(*f*) Value of sawn, peeled and sliced timber produced (quantity shown in last column) plus added value due to re-sawing, kiln drying, dressing operations and making up into fruit cases, etc., where this is actually performed in the mills.
(*g*) Value of output less *specified* costs of production other than labour.
(*h*) Includes estimated value for *rented* land, buildings, plant and machinery.
(*i*) Peeled and sliced timber has been converted to sawn timber equivalent. The value of all timber produced during 1966-67 (at the rough sawn stage) is estimated at $16,372,336.
(*j*) Not available for publication.
(*k*) Less than $500.
(*l*) Logs sawn: Hardwoods 346,031,000 hoppus sup ft; Softwoods 9,007,000 hoppus sup ft.

EMPLOYMENT (*a*) IN FACTORIES IN EACH CLASS OF INDUSTRY ACCORDING TO STATISTICAL DIVISIONS, 1966–67

Value of Production (*f*)	$'000	1,691	1,487	1,577	1,638	1,617
Value of Land and Buildings (*g*)	$'000	1,397	1,386	1,386	1,386	1,386
Value of Plant and Machinery (*g*)	$'000	703	641	673	722	731

(*b*) Includes statistics of 'Non-Government Railways' for 1962-63.
For other notes: see below last table on this page.

MOTOR VEHICLE REPAIRS (MECHANICAL)

(Class IV, Sub-Class 10)

Item		1962-63	1963-64	1964-65	1965-66	1966-67
Number of Factories		333	335	345	357	353
Motors and Engines Ordinarily in Use	hp	2,404	2,293	2,422	2,642	2,633
Average Number of Workers (*c*)		1,908	1,967	2,012	2,078	2,095
Salaries and Wages Paid (*d*)	$'000	3,116	3,470	3,811	4,018	4,259
Cost of Materials Used	$'000	3,329	3,714	3,932	4,216	4,690
Other Specified Costs of Production (*e*)	$'000	188	184	214	236	235
Value of Output	$'000	8,517	9,593	10,352	10,845	11,960
Value of Production (*f*)	$'000	5,000	5,695	6,206	6,392	7,035
Value of Land and Buildings (*g*)	$'000	4,718	5,367	5,751	5,905	6,215
Value of Plant and Machinery (*g*)	$'000	897	900	912	867	860

For notes: see below last table on this page.

MOTOR VEHICLES—MOTOR BODIES (INCL. MOTOR VEHICLE BODY REPAIRS)

(Class IV, Sub-Class 11)

Item		1962-63	1963-64	1964-65	1965-66	1966-67
Number of Factories		47	52	56	57	65
Motors and Engines Ordinarily in Use	hp	316	366	377	423	485
Average Number of Workers (*c*)		428	475	483	526	574
Salaries and Wages Paid (*d*)	$'000	730	854	913	1,004	1,149
Cost of Materials Used	$'000	811	972	1,047	1,207	1,414
Other Specified Costs of Production (*e*)	$'000	21	22	29	32	42
Value of Output	$'000	2,026	2,367	2,646	2,922	3,516
Value of Production (*f*)	$'000	1,194	1,373	1,570	1,683	2,059
Value of Land and Buildings (*g*)	$'000	924	1,214	1,343	1,612	1,503
Value of Plant and Machinery (*g*)	$'000	75	89	91	93	112

(*c*) Average for *whole* year, including working proprietors. See explanatory note, page 5.
(*d*) Excludes amounts drawn by working proprietors.
(*e*) Comprises cost of power, fuel and light, water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(*f*) Value of output less specified costs of production, other than labour.
(*g*) At 30 June. Includes estimated value of *rented* land, buildings, plant and machinery.
r Revised.

FOUNDING, CASTING, ETC. (NON-FERROUS)

(Class IV, Sub-Class 22)

Item		1962-63	1963-64	1964-65	1965-66	1966-67
Number of Factories		8	8	8	8	9

Value of Plant and Machinery (g)	$'000	2,837	2,601	3,369	3,343	3,316

(b) Includes statistics of 'Dehydrated Fruit and Vegetables' for 1962-63.
For other notes: see below last table on this page.

BACON CURING

(Class IX, Sub-Class 12)

Item		1962-63	1963-64	1964-65	1965-66	1966-67
Number of Factories		14	15	12	12	11
Motors and Engines Ordinarily in Use	hp	1,059	1,100	1,070	1,137	1,156
Average Number of Workers (c)		279	274	278	276	282
Salaries and Wages Paid (d)	$'000	568	577	594	685	757
Cost of Materials Used	$'000	2,961	3,400	3,784	4,330	4,523
Other Specified Costs of Production (e)	$'000	230	247	293	354	365
Value of Output	$'000	4,258	4,982	5,490	6,125	6,151
Value of Production (f)	$'000	1,066	1,335	1,413	1,442	1,263
Value of Land and Buildings (g)	$'000	859	859	882	966	957
Value of Plant and Machinery (g)	$'000	286	310	316	325	366

(c) Average for *whole* year, including working proprietors. See explanatory note, page 5.
(d) Excludes amounts drawn by working proprietors.
(e) Comprises cost of power, fuel and light, water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(f) Value of output less specified costs of production, other than labour.
(g) At 30 June. Includes estimated value of *rented* land, buildings, plant and machinery.

BUTTER FACTORIES (*a*)

(Class IX, Sub-Class 13)

Item		1962–63	1963–64	1964–65	1965–66	1966–67
Number of Factories		16	12	12	12	12
Motors and Engines Ordinarily in Use	hp	2,893	2,066	2,099	2,493	2,541
Average Number of Workers (*d*)		368	228	242	255	252
Salaries and Wages Paid (*e*)	$'000	825	499	556	628	679
Cost of Materials Used	$'000	10,671	9,403	9,872	9,771	10,311
Other Specified Costs of Production (*f*)	$'000	1,101	332	312	405	416
Value of Output	$'000	14,189	11,499	11,782	11,454	12,479
Value of Production (*g*)	$'000	2,418	1,764	1,598	1,278	1,751
Value of Land and Buildings (*h*)	$'000	801	469	607	647	885
Value of Plant and Machinery (*h*)	$'000	1,026	706	719	1,256	1,742

(*a*) Includes statistics of 'Condensed and Dried Milk Factories' for 1962-63.
For other notes: see below last table on this page.

CHEESE FACTORIES

(Class IX, Sub-Class 14)

Item		1962–63	1963–64	1964–65	1965–66	1966–67
Number of Factories		5	8	8	7	7
Motors and Engines Ordinarily in Use	hp	157	241	242	338	281
Average Number of Workers (*d*)		21	36	71	82	93
Salaries and Wages Paid (*e*)	$'000	49	90	165	176	200
Cost of Materials Used	$'000	227	500	889	1,395	1,827
Other Specified Costs of Production (*f*)	$'000	26	68	121	128	208

Value of Plant and Machinery (*h*)	$'000	43	94	284	831	931

For notes: see below last table on this page.

AERATED WATERS, CORDIALS, ETC.

(Class IX, Sub-Class 21)

Item		1962–63	1963–64	1964–65	1965–66	1966–67
Number of Factories		13	13	13	13	12
Motors and Engines Ordinarily in Use	hp	(*b*)	592	609	707	538
Average Number of Workers (*d*)			197	202	217	218
Salaries and Wages Paid (*e*)	$'000		406	442	488	503
Cost of Materials Used	$'000		1,030	896	1,159	1,150
Other Specified Costs of Production (*f*)	$'000		446	478	522	522
Value of Output	$'000		2,422	2,279	2,718	2,842
Value of Production (*g*)	$'000		946	904	1,037	1,170
Value of Land and Buildings (*h*)	$'000		523	552	583	532
Value of Plant and Machinery (*h*)	$'000		506	490	477	408

(*b*) Details for 1962-63 are not available for publication separately.
For other notes: see below last table on this page.

SAWMILLS (*c*)

(Class X, Sub-Class 1)

Item		1962–63	1963–64	1964–65	1965–66	1966–67
Number of Factories		324	305	308	289	279
Motors and Engines Ordinarily in Use	hp	40,117	42,313	44,126	45,735	47,813
Average Number of Workers (*d*) (*i*)		2,691	2,754	2,850	2,942	2,892
Salaries and Wages Paid (*e*)	$'000	4,983	5,296	5,899	6,417	6,709
Cost of Materials Used	$'000	12,933	13,379	14,934	16,420	17,527
Other Specified Costs of Production (*f*)	$'000	1,144	1,206	1,480	1,520	1,565
Value of Output (*j*)	$'000	23,191	23,952	27,866	30,058	31,277
Value of Production (*g*)	$'000	9,113	9,366	11,451	12,117	12,184
Value of Land and Buildings (*h*)	$'000	2,334	2,546	3,033	3,230	3,464
Value of Plant and Machinery (*h*)	$'000	3,491	3,449	3,623	3,722	3,793

(*c*) Includes statistics of 'Plywood Mills' for 1962-63.
(*d*) Average for *whole* year, including working proprietors. See explanatory note, page 5.
(*e*) Excludes amounts drawn by working proprietors.
(*f*) Comprises cost of power, fuel and light, water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant
(*g*) Value of output less specified costs of production, other than labour.
(*h*) At 30 June. Includes estimated value of *rented* land, buildings, plant and machinery.
(*i*) Does not include workers in the bush (felling, carting logs to mill, etc.).
(*j*) Includes value added by re-sawing and planing.

JOINERY
(Class X, Sub-Class 4)

Item		1962–63	1963–64	1964–65	1965–66	1966–67
Number of Factories		110	109	113	109	107
Motors and Engines Ordinarily in Use	hp	3,800	3,859	3,686	3,847	3,507
Average Number of Workers (*b*)		669	601	619	665	608
Salaries and Wages Paid (*c*)	$'000	1,219	1,211	1,218	1,395	1,348
Cost of Materials Used	$'000	1,909	1,938	1,967	2,350	2,065
Other Specified Costs of Production (*d*)	$'000	81	64	62	65	49
Value of Output	$'000	3,970	4,034	4,093	4,699	4,218
Value of Production (*e*)	$'000	1,979	2,033	2,065	2,285	2,103
Value of Land and Buildings (*f*)	$'000	1,005	872	923	998	1,010
Value of Plant and Machinery (*f*)	$'000	379	357	337	364	384

For notes: see below last table on this page.

CABINET AND FURNITURE MAKING (WOODEN)
(Class XI, Sub-Class 1)

Item		1962–63	1963–64	1964–65	1965–66	1966–67
Number of Factories		57	56	52	49	51
Motors and Engines Ordinarily in Use	hp	1,430	1,387	1,335	1,381	1,764
Average Number of Workers (*b*)		389	440	433	447	511
Salaries and Wages Paid (*c*)	$'000	616	716	762	818	976
Cost of Materials Used	$'000	882	1,189	1,416	1,466	1,805
Other Specified Costs of Production (*d*)	$'000	25	42	45	51	60
Value of Output	$'000	1,959	2,448	2,732	2,840	3,555
Value of Production (*e*)	$'000	1,052	1,216	1,270	1,323	1,690
Value of Land and Buildings (*f*)	$'000	648	785	871	838	1,101
Value of Plant and Machinery (*f*)	$'000	177	180	166	201	288

For notes: see below last table on this page.

PRINTING GENERAL (INCL. BOOKBINDING)
(Class XII, Sub-Class 3)

Item		1962-63	1963-64	1964-65	1965-66	1966-67
Number of Factories		(*g*)	30	30	30	29
Motors and Engines Ordinarily in Use	hp		924	951	1,067	1,070
Average Number of Workers (*b*)			535	563	598	627
Salaries and Wages Paid (*c*)	$'000		1,058	1,182	1,304	1,409
Cost of Materials Used	$'000		931	1,061	1,109	1,169
Other Specified Costs of Production (*d*)	$'000		82	96	96	96
Value of Output	$'000		2,855	3,171	3,351	3,658
Value of Production (*e*)	$'000		1,843	2,014	2,146	2,394
Value of Land and Buildings (*f*)	$'000		1,165	1,177	1,206	1,318
Value of Plant and Machinery (*f*)	$'000		727	784	928	942

(*g*) Details for 1962-63 are not available for publication separately.

For other notes: see below last table on this page.

PAPER MAKING (*a*)
(Class XII, Sub-Class 9)

Item		1962–63	1963–64	1964–65	1965–66	1966–67
Number of Factories		43	4	4	4	4
Motors and Engines Ordinarily in Use	hp	107,996	106,074	107,560	108,528	111,900
Average Number of Workers (*b*)		4,419	3,373	3,335	3,556	3,588
Salaries and Wages Paid (*c*)	$'000	10,669	9,227	9,897	10,489	11,686
Cost of Materials Used	$'000	16,877	14,906	16,397	17,964	18,935
Other Specified Costs of Production (*d*)	$'000	5,598	5,530	5,896	6,332	6,361
Value of Output	$'000	46,827	41,114	43,140	46,121	48,665
Value of Production (*e*)	$'000	24,352	20,677	20,848	21,825	23,369

(a) Includes butter equivalent of butter oil.
(b) Short ton of 2,000 lb.
(c) Years prior to 1965-66 relate to production of cathode copper.
(d) Not dressed. Includes superficial feet equivalent of sliced and peeled veneers.
(e) Produced in the main from sawn timber shown in preceding column.
(f) Prior to 1966-67 includes 'Bricks—Other Sizes'.

MANUFACTURING INDUSTRIES—STATISTICAL SUMMARY

Year	Number of Factories	Average Number (*a*) of Workers						Total Workers	Motors and Engines used in Factories (excludes Central Electric Stations)	Value at 30 June	
		Occupational Status			Sex						
		Working Proprietors	Managerial and Clerical Staff, etc. (*b*)	All Other Workers	Males	Females	Masculinity (Males per 100 Females)			Land and Buildings (*c*)	Plant and Machinery (*c*)
									'000 hp	$'000	$'000

(*a*) Average for *whole* year. See explanatory note, page 5.
(*b*) Includes salaried managers, working directors, chemists, draftsmen and other laboratory and research staff.
(*c*) Includes estimated value for *rented* land, buildings, plant and machinery.
(*d*) Comprises cost of power, fuel and light, water and lubricating oils, containers, packing, etc., tools replaced and repairs to plant.
(*e*) Includes working proprietors.
(*f*) Excludes working proprietors and amounts drawn by them.
(*g*) Amounts paid to managerial and clerical staff, etc.
(*h*) Amounts paid to all other workers.

NOTE: Retain one copy for your own records.

TASMANIAN STATISTICS
FACTORY RETURN FOR YEAR ENDED 30 JUNE 1967
(Required under the Commonwealth Census and Statistics Act, 1905-66)

FACTORY FORM No. 4—MEAT PRESERVING, BACON-CURING, SAUSAGE CASINGS—12 MONTHS ENDED 30 JUNE 1967

EDIT.

LOCATION OF FACTORY:

Please amend Name and Address if incorrect or incomplete:

← FILE No. Quote in all correspondence.

1. This form must be completed and returned to the DEPUTY COMMONWEALTH STATISTICIAN, Box 66A, G.P.O., Hobart, not later than 18 August 1967. A Post Free Envelope is provided.
2. The returns are strictly confidential and will be used solely for statistical purposes. Under no cirsumstances whatever will particulars of any individual business be disclosed to other individuals or to Government Departments.

PARTICULARS OF FACTORY OR WORKSHOP

Municipality in which factory is situated—

.....

.....

Nature of Work Done (*see* Instruction 4)—

.....

.....

Period Worked During Year (*see* Instruction 6) (01) .....Months

If, at the close of the year, you were not conducting factory or workshop operations at the address printed above, please state—

(*a*) Month ceased such operations at that address

(*b*) Whether cessation was due (indicate by √) to
☐ permanent or ☐ temporary closing down, or to
☐ transfer to another address (show new address above)

If you have vacated the premises at the address printed above, please state, if known—

(*a*) Purpose for which the premises are now used.....

.....

(*b*) Name of present occupier.....

PLEASE ENSURE THAT ALL VALUES ARE SHOWN IN DOLLARS

(02) Office Use Only.....

PART A—PERSONS EMPLOYED AND WAGES PAID (EXCLUDE PERSONS ENGAGED IN SELLING AND DISTRIBUTION)— (*See* Instructions 5, 7, 8, 9 and 10)		Males	Females
		No.	No.
(i) Average Monthly Number of Working Proprietors Engaged in Office or Factory	(03)		
(ii) Number of Employees on Office and Factory pay-roll on last pay day each month (exclude Working Proprietors; include Working Directors of Companies)—		No.	No.
Month—1966—July	(04)

September	(06)		
October	(07)		
November	(08)		
December	(09)		
1967—January	(10)		
February	(11)		
March	(12)		
April	(13)		
May	(14)		
June	(15)		
		No.	No.
(iii) Ages of Employees on last pay day of June 1967—Under 16 years	(16)		
16 years and under 21 years	(17)		
21 years and over	(18)		
		No.	No.
(iv) Average Monthly Number of Employees (exclude Working Proprietors; include Working Directors of Companies)—			
Managerial and Clerical Staff (including Salaried Managers and Working Directors)	(19)		
Chemists, Draughtsmen and other Laboratory and Research Staff	(20)		
Workers in Factory (Skilled and Unskilled), Foremen and Overseers, Carters (exclude delivery only), Messengers and Persons working regularly at home	(21)		
TOTAL EMPLOYEES	(22)		
		$	$
(v) Total amount of Salaries and Wages Paid During the Year to Employees (exclude drawings of Working Proprietors)—			
Managerial and Clerical Staff (including Salaried Managers and Working Directors), Chemists, Draughtsmen and other Laboratory and Research Staff (lines 19 and 20 above)	(23)		
Workers in Factory (Skilled and Unskilled), Foremen and Overseers, Carters (exclude delivery only), Messengers and Persons working regularly at home (line 21 above)	(24)		
TOTAL SALARIES AND WAGES	(25)		

2

FACTORY FORM No. 4—MEAT PRESERVING, BACON-CURING, SAUSAGE CASINGS—12 MONTHS ENDED 30 JUNE 1967

PART B—SELECTED COSTS OF PRODUCTION— (*See* Instructions 11-18 inclusive)		Quantity	Cost (Nearest $)
			$
Power, Fuel and Light Used—Coal, Black	(26)	tons	
Coal, Brown	(27)	tons	
Brown Coal Briquettes	(28)	tons	
Coke	(29)	tons	
Wood (Weight)	(30)	tons	
Fuel Oil	(31)	gal	
Tar Fuel	(32)	tons	
Electricity	(33)		
Gas—Town (reticulated public supply)	(34)		
Other (e.g., charcoal, steam, L.P.G. used as a fuel)	(35)		
Water Used (including water rates and carting)	(36)		
Lubricating Oils Used	(37)		
Repairs, etc. (not shown in line 50 below) including— (i) Value of tools replaced (not forming part of permanent plant); (ii) Repairs to plant and building. Material (at cost) used by own workmen; (iii) Cost of repairs to plant, etc., done by other than own workmen	(38)		
Containers, such as wrappers, bottles, tins, bags, sacks, cases, casks. corks, labels, etc., and materials used for packing during year	(39)		
Materials Used, treated, operated upon, or worked up. Total cost to you of all materials, not included above, used in producing output, the value of which is shown in PART C (*see* Instruction 12)	(40)		
TOTAL OF ABOVE SELECTED COSTS OF PRODUCTION	(41)		

PART C—VALUE OF OUTPUT (INCLUDING WORK DONE) DURING YEAR— (*See* Instructions 15, 17, 18 and 19 to 23 inclusive)		$
ITEM A—Selling Value at Works (exclusive of all delivery costs or charges) of goods manufactured, treated, or worked up during the year, including by-products	(42)	
ITEM B—Value of Other Work Done, in addition to the Manufacture or Treatment of the goods shown in Item A above, such as repairing and making up for customers, etc.; in these cases the amount charged should be stated	(43)	
TOTAL VALUE OF OUTPUT	(44)	

PART D—VALUE OF FACTORY STOCKS (Balance-sheet Basis) (*See* Instruction 24)		Value of Factory Stocks	
Figures are desired as at 30 June in each year.		30 June 1966	30 June 1967
If actual figures as at 30 June are not available, estimates based on the nearest available stocktaking will suffice (state date .....)		$	$
Types of Stocks—Materials, Components, Containers, Supplies, Fuel, etc.	(45)		
Work in Progress	(46)		
Finished Goods	(47)		
TOTAL FACTORY STOCKS	(48)		

PART E—VALUE OF PREMISES AND MACHINERY USED FOR FACTORY AND WORKS PURPOSES— (*See* Instructions 25 and 26)		Land and Buildings	Plant and Machinery
		$	$
At beginning of year	(49)		
Add—Additions and Replacements during the year (not shown in line 38 above)	(50)		
Adjustments due to revaluation (+)	(51)		
TOTAL	(52)		
Less—Depreciation allowed during year	(53)		
Sales and Losses by fire, etc., during year	(54)		
Adjustments due to revaluation (–)	(55)		
At end of year	(56)		
If not owned state ANNUAL RENTAL payable	(57)		

PART F—MOTORS AND ENGINES EMPLOYED TO DRIVE MACHINERY— (Exclude obsolete Motors and Engines) (*See* Instruction 27)		Total Rated Horse-power	
		Ordinarily in Use	In Reserve or Idle
Electric Motors—Driven by—Purchased electricity	(58)	hp	hp
Electricity generated in own works (*see* line 65 below)	(59)	hp	hp
Steam—Reciprocating	(60)	hp	hp
Turbine	(61)	hp	hp
Internal Combustion—All types (Petrol, Distillate, Gas, etc.)	(62)	hp	hp
Water	(63)	hp	hp
TOTAL	(64)	hp	hp
Electricity—Total generated during Year for all purposes	(65)		'000 kWh

TASMANIA

INSTRUCTIONS TO PERSONS FILLING IN FACTORY RETURNS

GENERAL

1. Under the authority of the Commonwealth 'Census and Statistics Act 1905-1966' these returns are required to be filled in with the necessary details for the period 1 July 1966 to 30 June 1967, or thereabouts, and should be completed and returned by post to The Deputy Commonwealth Statistician, Hobart, not later than 31 July 1967. No extension of time will be granted unless it can be shown that it is impracticable to render the return by the specified date.

2. Returns will be regarded as strictly confidential. The information given in these forms is used only for statistical purposes to arrive at aggregates for each kind of industry. The contents of individual returns are not disclosed in any way and no other department, or officer unattached to this Office, is permitted to see them.

3. Several Industries in One Establishment—In large establishments where two or more industries are carried on, separate forms will be supplied, which should, if practicable, be filled in for each industry. The particulars relating to the whole establishment should be allocated, as nearly as possible, to each industry.

4. The line 'Nature of Work Done' should be used for a brief description of the main operations or processes carried out, e.g., Brick-making, Shirtmaking, Motor Repairing, Bread Baking, Sawmilling, etc.

5. A factory is defined as an establishment (mill, workshop, plant, etc.) in which four or more persons are employed or where power (other than manual) is used in the manufacture, preparation, treatment or repair of any article. Where a manufacturing business is carried on in connection with a wholesale or retail trading business, the return must be restricted to the details of the *manufacturing branch only*. That portion of the premises used for manufacturing purposes should be separately valued and shown under Part E. *Particulars concerning Salesmen, Travellers, Collectors and Retailing Storemen must NOT be included with persons employed in the factory, or in salaries and wages paid.*

EXPLANATION OF ITEMS REQUIRED

6. Period Worked—The time the establishment was working during the year is to be given in calendar months, holidays during working period also being included.

PART A—PERSONS EMPLOYED AND WAGES PAID

7. Number of Working Proprietors (*see* **Section (i)**)—Show the average monthly number of male and female working proprietors engaged in the office or factory during the period of operation. There are no working proprietors in a proprietary company. Particulars of working directors should be included in Sections (ii), (iii), (iv) and (v).

8. Employment on Last Pay Day of Month (*see* **Section (ii)**)—Particulars should exclude working proprietors, and should relate to the same classes of employees as are covered by the 'Average Monthly Number of Employees' as shown in Section (iv).

9. Average Number of Employees (*see* **Section (iv)**)—This means the average monthly number *during the period of operation*. For example, for an establishment working the whole year the average will be the sum of the *total* employees on the office and factory pay-roll on the last pay day of each month divided by 12; the average for an establishment working three months will be the sum of the monthly totals divided by 3, and similarly with other periods. The total of the average numbers employed must be distributed under the various groups as shown. *Persons engaged in selling or distributing must NOT be included.* (*See also Instruction 5 above.*)

10. Salaries and Wages Paid (*see* **Section (v)**)—

Working Proprietors—No amount of remuneration is required to be shown.

Other Employees—The total amounts of salaries or wages paid to all employees during the year (including overtime, bonuses, etc.) are required to be given.

Pay-roll Tax—The amount paid as PAY-ROLL TAX must not be included as salaries and wages paid.

Note—Carters (on wages—not contractors) employed in bringing material for manufacture should be included, but not those engaged entirely *in the delivery of manufactured goods*, as the value of output of such goods is the selling value 'at works', excluding all delivery costs or charges. If the carter's work be divided in this respect, however, his time and wages should be apportioned accordingly.

PART B—SELECTED COSTS OF PRODUCTION

11. Cost of Power, Fuel and Light Used (Lines (26)-(35))—Care should be exercised to see that the costs are not duplicated in any of the other items and that full particulars of quantities asked for are given for *each kind* of fuel, etc. (Where exact figures are not available, a careful estimate must be given.) Coal used in the manufacture of coke and gas, and coke used in steel furnaces, should not be included here but shown as a raw material in Line (40). Acetylene Gas and Oxygen should be similarly treated.

12. Materials Used, etc. (Line (40))—The value quoted should be the net cost landed at the factory of all materials **actually used** during the year exclusive of all subsidies, rebates, etc., allowed by the Government on such raw materials. In addition the value of goods in process at the beginning of the year should be included in this item. Care should be taken to ensure that items included here have not been included already in other headings under Part B.

13. Making-up or Treating Customer's Materials—Include in Part B, Line (40), the value (cost) of maker's own materials, such as trimmings, cottons, etc. (dyes, etc., in dyeing), used, and in Part C, Line (43), the amount charged to consumers for making-up or treating their materials.

14. Containers, etc. (Line (39))—

Non-returnable—Show the net cost to you of non-returnable containers actually used during the year.

Returnable—Show the actual net cost to you of replacements of returnable containers during the year.

15. Repair Work of any Kind—The value (cost) of all materials used in repairing should be included in Line (40), while the amount charged for making repairs should be shown in Part C, Line (43).

16. Other Costs of Production—Costs such as insurance, taxation, etc., must not be included in Part B of the return. This is a return of selected items of factory statistics and is not intended to embrace all items of costs nor to reveal profit or loss. Only those costs specifically mentioned on the form are to be shown therein.

17. Assembling the Manufactured Parts of Machines, Motor Cars, etc.—Where operations consist wholly or partly of assembling the manufactured parts of machines, motor cars, etc., the value of the parts should *not* be included in the cost of materials used, nor in the value of output. The latter value should be shown in Part C, Line (43), and should include the actual labour cost of assembling the parts, cost of fuel and power used, any additional expenses of assembly, and profit made on such work.

18. Finished Goods Purchased for Re-sale—The value of finished goods purchased for re-sale without treatment must not be included anywhere.

PLEASE TURN OVER

PART C—VALUE OF OUTPUT

19. Value of Output—

Item (A)—Line (42)—The value of output here given should be the *selling value at factory to customers of all goods made or processed during the year (including by-products) after deducting all costs of selling and distribution*, and after adding any bounty or subsidy received by the manufacturer on finished products and any wage refund or profit subsidy paid to the factory by the Government.

Item (B)—Line (43)—The value here given should be the *amount charged to customers for other work done such as repairs, renovations and alterations, and work done on commission.*

20. Goods in Process of Manufacture—The value of goods in process at the **end** of the year just completed must also be included in the value of output. Similarly the value of goods in process at the **beginning** of the same year must be added to the 'cost of materials used'.

21. Costs of Installation, etc.—Where the selling price of manufactured goods includes installing or fixing (shop and window fittings, tiles, fibrous plaster sheets, etc.) the charges for transport, installation, erection or fixing of such goods must be deducted in valuing output in Item (A), Line (42). Employees engaged in such work and their wages must also be excluded from Part A.

22. Excise and Sales Tax must not be included in the 'Value of Output' or in the particulars given of any article manufactured.

23. Bounty and Subsidy—The amount received as bounty or subsidy (of any kind) on the production of goods or as wage refund or as profit subsidy under the price stabilisation scheme or otherwise must be included in the value of goods manufactured (Item (A), Line 42)).

PART D—VALUE OF FACTORY STOCKS

24. Include all items classifiable as factory stocks whether located *at the factory* or not. Valuation (including that for work in progress) should be on the basis used for balance-sheet purposes. Where work is done on contract for others the value to be shown should be the cost of work done to 30 June less progress payments received.

PART E—VALUE OF PREMISES AND MACHINERY USED FOR FACTORY AND WORKS PURPOSES

25. Value of Land and Buildings used for Works and Factory Purposes—Where the Land, Buildings and Fixtures are the property of the occupier, the values stated should be the depreciated values or book values *less* any depreciation reserve existing in respect of them. If the premises are rented, state the annual rental payable exclusive of rates and taxes.

26. Value of Machinery and Plant—This should include the value of all machinery, implements, and tools used; also vehicles and plant for the conveyance of raw materials, and casks in the case of a brewery. In brickyards, potteries, lime kilns and glassworks the value of the kiln should be included under this head, and not as a building. The values stated should be the depreciated values or book values *less* any depreciation reserve existing in respect of them. Where machinery is rented, state the annual rental payable.

PART F—MOTORS AND ENGINES EMPLOYED TO DRIVE MACHINERY

27. Motors and Engines—Total rated horse-power is required separately for motors and engines ordinarily in use and for those in reserve or idle (i.e., in use only occasionally as during periods of breakdown to power supply). Obsolete motors and engines must be omitted altogether.

If the same power is used in the one establishment for more than one industry, the *horse-power* of the engines should be allocated, if practicable, as indicated in Instruction 3 above.

PART G—MATERIALS USED

28. Details shown for materials used should refer to actual usage and not to purchases. Values should be shown at cost as delivered at factory as included in Materials used—Line (40) in Part B, 'Selected Costs of Production'.

PART H—ARTICLES PRODUCED

29. Details shown for articles produced should refer to goods actually made and/or assembled. Values should be selling value at factory (exclusive of all delivery costs and charges) as included in Item A—Line (42) in Part C, 'Value of Output'.

DIRECTIONS RELATING TO SPECIAL INDUSTRIES

30. Cold Storage—The value of the commodities placed in the cold store should not be included in the cost of materials used (Part B), nor in the value of the output (Part C). The amount to be shown in Item B—Line (43) in Part C, should include the actual labour cost, the cost of fuel and power used, any additional expenses of storing and profit made on such work.

31. Food-packing, Tobacco-cutting and Packing, Tea-blending and Packing, Bottling and Grading Establishments—In these and other similar establishments where imported or other goods in bulk are made up in packets, **but no actual manufacturing is done,** only the value added to the material by the operation should be shown in Item B—Line (43) in Part C. This value may be ascertained by subtracting the cost of materials used from the wholesale selling value of the finished goods.

32. Brick, Pottery, Tile and Lime Burning Works—The value of materials used shown in Part B must include wages of pitmen and quarrymen and all other costs incidental to obtaining clay or limestone and delivery at the kiln. Such employees and the wages paid to them, should, therefore, not be included in Part A. The value of the kiln must be included as part of your plant and not as a building.

If any difficulty arises the Deputy Commonwealth Statistician will be pleased to furnish additional information. (Box 66A, G.P.O., Hobart. Telephone 2 2741.)

R. LAKIN,
Deputy Commonwealth Statistician

Commonwealth Bureau of Census and Statistics
(Tasmania Branch),
T. & G. Building,
Collins Street,
Hobart.

2. BUILDING STATISTICS

SCOPE

In the section that follows, building statistics relate exclusively to the erection of new buildings, including major new additions to existing buildings; construction work such as the building of railways, bridges, earthworks, water storages, piers, wharves, etc. is excluded. Minor additions, alterations, renovations and repairs to buildings are also excluded because of the difficulty of obtaining lists of persons who undertake this work.

When a dwelling is attached to a new building, the whole unit, both in regard to number and value, is classified according to the type of new building, (e.g. a new shop and dwelling is classified simply as a shop). Figures for flats include 'home units', but not conversions of existing buildings into flats. Numbers shown for flats refer to number of new *individual* dwelling units.

Details obtained from government authorities on their construction programmes and from building contractors refer to all parts of the State. Details for owner builders cover only those areas subject to building control by Local Government Authorities; thus some farm buildings are excluded, but this does not affect the figures materially.

SOURCE OF DATA

The main statistics relate to building approvals and to building operations (commencements, completions, etc.). The data are derived as follows:

Building Approvals: These comprise: (*a*) Approvals by Local Government Authorities for the construction of private buildings. (*b*) Contracts let and day labour projects commenced by government authorities. (*c*) Private buildings reported by contractors to have been commenced in certain areas of the few rural municipalities where building regulations do not apply to the whole municipality. Details are collected and compiled on a monthly basis.

Building Operations: Returns are obtained from: (*a*) Building contractors engaged in the erection of new buildings. (*b*) Owner-builders. (*c*) Commonwealth, State, Semi and Local Government Authorities. Statistics are collected and compiled on a quarterly basis.

DEFINITIONS

Houses and Flats: Figures for houses and flats exclude those attached to other new buildings.

Contract-Built: Includes the operations of all building contractors and government authorities which undertake the erection of new buildings.

Owner-Built: An 'owner-built' house is one actually erected or being erected by the owner, or under the owner's direction, without the services of a contractor who is responsible for the whole job.

Commenced: A building is regarded as having been commenced when work on the foundations has begun.

Completed: A building is regarded as having been completed when the contractor has fulfilled the terms of the contract.

Both with 'completions' and 'commencements', there is some difficulty in maintaining a uniform classification since the definition of an exact point of time in building operations is involved.

Under Construction: A building is so classified if it is uncompleted at the end of the period, whether or not work on it was actively proceeding at that date.

Values: All values exclude the value of land and represent the estimated value of buildings *on completion*. In the case of owner-built dwellings, the owner-builder is required to estimate the value from the cost of the materials and the cost of labour, including his own.

New buildings, including dwellings, with an estimated value on completion of less than $1,000 are excluded from the tabulations.

Values of Work Done: These are the estimated values of work actually carried out on buildings during the period. For any building the sum of these values obtained during its construction equals the value of the completed building.

Employment: The figures shown on page 60 relate to persons working on the jobs of contractors who undertake the erection of new buildings and of government authorities which erect new buildings on their own account. They include persons engaged on alterations, additions, repairs and maintenance when these jobs are undertaken by such contractors and authorities.

Persons working on owner-built houses, and employees of builders who undertake only alterations, additions, repairs and maintenance are excluded.

(a) See definition, page 8; figures prior to 1966-67 relate to 'Hobart and Suburbs' and are not strictly comparable with those for 1966-67.

(b) Prior to 1958-59 approvals for Other New Buildings included those for Flats. Also, no dissection was made between Other New Government Buildings and Alterations and Additions to Government Buildings.

(c) See definition, page 8.

PUBLIC FINANCE

SCOPE, DEFINITIONS AND EXPLANATORY NOTES

Sources: The information on public finance has been extracted from the following annual publications of the Tasmanian Government:

Consolidated Revenue Fund: Statement of Estimated Expenditure and Estimated Revenue.

The Budget Speech and Financial Statement of the Treasurer of Tasmania.

Details of the Loan Fund Estimates.

Report of the Auditor-General.

Annual reports of other Government Authorities.

Tasmanian Public Account: The State Public Account includes the Consolidated Revenue Fund, the Accumulated Revenue Account, the Trust and Special Funds, and the Loan Funds.

The Consolidated Revenue Fund: Ordinary revenues from taxation and other sources are paid into the Consolidated Revenue Fund from which the main expenditures are for public debt charges, education, development of State resources, health and hospitals, general administration, subsidies to State business undertakings, law and order and certain welfare activities. Not all taxes are paid into Consolidated Revenue; some taxation collections are paid to special funds (e.g. Motor Taxation to Transport Commission, Racing Taxation to Racing Commission).

Details of other Government activities separated from the Consolidated Revenue Account are given below.

The Accumulated Revenue Account: The Accumulated Revenue Account is a suspense account recording accumulated surpluses and deficits in the Consolidated Revenue Fund and also the funding of deficits. Positive adjustments to the Special Grant from the Commonwealth (see below) are also transferred from the Consolidated Revenue Fund to this Account.

The Trust and Special Funds: The Trust and Special Funds cover special transactions outside the ordinary operations of departmental expenditure such as funds from the Commonwealth for special purposes and moneys held for expenditure by the State at some future time.

The Loan Fund: The Loan Fund receives its funds from public borrowings, repayment of advances by semi-government authorities and Commonwealth Capital Grants. Main expenditure from the Loan Fund is on State public works and advances to State business undertakings.

Effect of Adjustment to Special Grant (Commonwealth): The Special Grant recommended by the Commonwealth Grants Commission under Section 96 of the Constitution has, since 1947-48, been in two parts. One part is in the nature of a preliminary grant to meet the estimated financial needs of the State during the current financial year. The other part is an adjustment made after the close of the financial year. The magnitude of the adjustment (which may be positive or negative) will depend on whether the preliminary grant made two years earlier proved greater or less than the amount of financial assistance deemed justified by the Grants Commission. For example, the Special Grant for 1966-67 was $20,666,000 subject to a positive adjustment of $1,166,000 assessed in 1964-65 accounts. The adjustment of $1,166,000 was transferred to the Accumulated Revenue Account.

Government Activities Separated from the Consolidated Revenue Fund

The gross receipts and expenditure of many Government undertakings do not appear as entries in Consolidated Revenue, which may record only the *net* profit or *net* loss. Examples are given below:

(i) Railways, Shipping and Road Transport Services

In Tasmania, the railways (in common with certain other public transport utilities) are administered by the Transport Commission and, since 1939-40, the net trading losses of this authority have been met from the Consolidated Revenue Fund. Interest and redemption charges on advances to the authority by the State Government are paid into Consolidated Revenue.

Omnibus services in Hobart, Launceston and Burnie are operated by the Metropolitan Transport Trust. Only grants to offset the losses of this authority are charged against Consolidated Revenue.

(ii) Hydro-Electric Commission

Gross receipts and expenditure of this authority are not included in the Consolidated Revenue Fund. Interest and redemption charges on advances to the authority by the State Government are paid into Consolidated Revenue by the Commission. Profits are transferred to the Commission's own reserves which are also used to meet losses.

(ii) Miscellaneous Activities and Authorities

Also excluded from the Consolidated Revenue Fund are the gross receipts and payments of: Regional Water Supplies, Government Printing Office, Government Insurance Office, Public Trustee, Housing Authorities, Closer Settlement, Rural Credits and other activities of the Agricultural Bank. In accordance with various Acts, the net profits or losses of the previous year are paid to or from the Consolidated Revenue Fund for the current year.

Finance for Roads: The Commonwealth Aid Roads Grant is paid into the State Highway Trust Fund which is augmented by transfers from Consolidated Revenue.

1966-67	19,500	..	+ 1,166	20,666	534	34,773	..	55,973

(a) The assessment is shown against the actual year for which accounts have been examined by the Grants Commission. The two-year delay in application is due to the Grants Commission's obligation to perform a minute analysis of the accounts of the claimant and non-claimant States before announcing the adjustments.
(b) Advance grant plus or minus the completion grant applied.
(c) Including Tax Re-imbursement Grants up until 1958-59.
(d) An Employment Stimulation Grant of $3,040,000 was paid into a Trust Account in 1962-63.
(e) An Employment Stimulation Grant of $2,816,000 made in 1963-64 was paid into a Trust Account but subsequently $900,000 was transferred into Consolidated Revenue.

Assistance to Industries	—378	—55	312	343	1,513	4,509
Assistance to Iron Ore Industry	..	..	..	..	1,500	1,500
Works—						
Roads, Bridges and Harbours	3,798	4,761	3,468	4,422	1,893	57,486
School and University Buildings	3,598	4,293	4,053	4,438	4,026	50,858
Hospital Buildings	3,306	3,805	3,861	5,153	3,585	38,749
Other Public Buildings	504	610	878	415	1,379	14,464
Other Public Works and Purposes	928	1,442	—404	1,541	1,231	15,977
Other Purposes—						
Forestry	883	1,285	1,701	1,322	1,563	15,811
Immigration	..	..	..	..	..	471
Soldiers' Settlement Losses (Funded)	..	..	..	..	..	2,358
Miscellaneous Capital Losses (Funded)	..	..	..	..	..	603
Loan Flotation and Conversion Expenses	197	32	46	9	—65	5,102
Revenue Deficits Funded	113	161	..	..	306	11,799
Total	30,511	32,905	33,352	36,573	36,636	592,064

(*a*) Net loan expenditure is gross loan expenditure less repayments credited to loan fund. In 1966-67, repayments amounted to $3,525,515.

(*b*) Excludes expenditure on War Service Land Settlement from Commonwealth Funds. See note (*a*) on page 14.

(*c*) Excludes expenditure under Commonwealth-State Housing Agreements. See note (*a*) on page 14. Advances under this agreement are a liability of the State as trustee rather than as creditor.

NOTE: Aggregate Net Loan Expenditure can be reconciled with the Public Debt in the following manner—

	$'000	$'000
Aggregate Net Loan Expenditure to 30 June 1967	592,064	
Add Loan Fund Balance 30 June 1967	2,743	
Grand Total Loans Raised to 30 June 1967		594,806
Less Aggregate Redemptions from Sinking Funds		60,893
Less Liability for Exchange on Overseas Loans		8,996
Public Debt (mint par of exchange) at 30 June 1967		524,918

GROSS AND NET LOAN EXPENDITURE

Year	Loan Expenditure		Revenue Deficit Funded (*b*)	Net Loan Expenditure per Head
	Gross	Net (*a*)		
	$'000	$'000	$'000	$
1949-50	11,742	9,884	48	36.00
1950-51	30,802	27,465	402	96.90
1951-52	34,047	30,298	283	103.30
1952-53	40,152	26,137	493	86.40
1953-54	31,816	27,544	1,104	89.00
1954-55	35,310	29,378	604	94.00
1955-56	35,213	27,048	338	85.00
1956-57 (*c*)	23,544	22,039	737	67.90

Expenditure from Consolidated Revenue	(*b*) 20,680	(*b*) 22,654	(*b*) 24,320	(*c*) 3,394	(*c*) 3,649	(*c*) 3,904
Net Burden on Consolidated Revenue (*d*)	7,928	8,799	8,841	1,721	1,821	1,927

(*a*) This table excludes *capital* repayments which are part of the offsetting items deducted from gross loan expenditure to obtain net loan expenditure.
(*b*) Includes small proportion of loan management charges.
(*c*) Contribution payable under the Financial Agreement to the National Debt Sinking Fund.
(*d*) In respect of non-revenue producing assets such as schools, roads, etc.

NOTE: The figures given in the tables relating to Public Debt and Interest represent the 'face' or 'book' value of the debt without adjustment on account of currency changes since the loans were floated. At the rates of exchange current at 30 June 1967, total Public Debt at that date amounted to $535,606,361.

Grand Total	21,131	4,790	25,921	282,452	51,653	334,105	3,483	487	3,696

General Note: The semi-government authorities specified in the above table are those which have loan liabilities to creditors *other than the State Government*. This basis of selection excludes other semi-government authorities like the Transport Commission and the Housing Department which have borrowed exclusively from the State Government.

(*a*) There was no debt outside Australia at 30 June 1967.
(*b*) Much of the debt is in the form of Instalment Debentures which involve equated periodic payments of redemption plus interest. Interest is not included in the table.
(*c*) These advances were mainly from State Loan Funds.
(*d*) Mainly periodic payments in reduction of principal; redemption of loans from Sinking Funds are included.
(*e*) Includes Ulverstone Harbour.
(*f*) Loans raised by Launceston Corporation for Tramways before the formation of the Metropolitan Transport Trust are included as direct liabilities of the Trust.
(*g*) Loan money for this fund is made available by the Commonwealth but passes through State Trust Funds.
(*h*) Includes loan debt transferred from Rivers and Water Supply Commission.

NOTE: See also next section, Local Government Finance (pages 33-50) for: (i) Government grants to local government authorities for roads; (ii) expenditure by local government authorities on roads from revenue and from loans.

(*a*) Gordon River Road grants.
(*b*) Net of Receipts of Hire of Plant, which during 1966–67 amounted to $3,826,305.

8. COMMONWEALTH FINANCE IN RELATION TO TASMANIA

TAXATION COLLECTED BY COMMONWEALTH IN TASMANIA

($'000)

Tax	1962–63	1963–64	1964–65	1965–66	1966–67
Income Tax (*a*)	34,449	37,935	44,958	53,189	61,070
Sales Tax	6,640	7,048	7,950	7,839	9,962
Customs	2,494	2,764	1,801	2,413	3,041
Excise	14,716	14,939	16,466	19,139	20,987
Payroll Tax	3,457	3,733	3,807	4,182	4,897
Estate Duty (*b*)	673	702	638	682	519
Wool Tax	123	121	321	395	378
Export Charges	173	220	187	174	119
Gift Duty	145	146	137	122	116
Stevedoring Industry Charges	603	691	567	465	503
Canning Fruit Charge	1	1	1	1	1
Honey Levy	..	1	1	1	1
Butter Fat Levy	..	..	..	122	136
Livestock Slaughter Levies	..	..	..	45	69
Total	63,474	68,301	76,834	88,768	101,801

NOTE: The above amounts do not represent the full incidence of Commonwealth Taxation in relation to Tasmania, being understated by the amount of sales tax, customs and excise duties collected in other States on goods transhipped to Tasmania.

(*a*) Collections at Central Office (which for the whole of Australia amounted to approximately one-third of the total), are not included. Includes tax on individuals and companies.

(*b*) Excluding duty collected in Central Office.

COMMONWEALTH PAYMENTS IN TASMANIA FOR SOCIAL SERVICES HEALTH BENEFITS AND WAR PENSIONS

(*a*) Not available for publication, included in Total Excise Duties.
(*b*) As from July 1964 duty is included in the price of petroleum products purchased by Commonwealth Government departments and is subsequently credited by Commonwealth Treasury to the departments concerned. The figures shown have not been adjusted to these credits.
(*c*) Includes aviation spirits and mineral turpentine.

COMMONWEALTH INCOME TAX: RATES FOR INDIVIDUALS, INCOME YEAR 1966–67

GENERAL: The years quoted in the following paragraph refer to *income year*. There has been little variation in the rates of income tax on individuals since 1954-55, the chief relating to a general five per cent rebate of tax operative in the years 1959-60, 1961-62, 1962-63 and 1963-64. For the year 1964-65, the rebate was withdrawn and, for 1965-66, 1966-67 and 1967-68, a two and one half per cent levy was added. The other major change was the lift in the minimum taxable income from the previous $210 to $417 in 1963-64. In general then, the rates for 1966-67 are those for 1954-55, increased by only two and one-half per cent. The yield from income tax in this period has progressively increased, not because of rate variations, but because taxable incomes have also been rising.

($)

Selected Total Taxable Income (*a*)	Tax Payable	Selected Total Taxable Income (*a*)	Tax Payable
417	0.51		
500	9.63	4,000	771.31
600	15.88	4,100	807.59
700	24.29	4,200	843.88

(a) Excludes Government Grants and Road Motor Services.
(b) Excludes Road Motor Services
(c) Gross earnings less working expenses. See notes (a) and (b).
(d) Includes State Government Grants and Road Motor Services earnings.
(e) Includes Interest and Exchange, Sinking Fund, Road Motor Services and Other Expenses charged to Railways.
(f) Includes State Co-ordination Tax Contribution.
(g) Includes deficit ($669,421) on the Queensland 4 ft 8½ in gauge system.
(h) Includes provision of reserves for depreciation.
(i) See page 17, Transport Commission, for grant of Land Tax and re-imbursement of net loss. These two grants are excluded from the above table (since they relate to *all* Transport Commission business undertakings, not railways alone).

OPERATING STATISTICS GOVERNMENT RAILWAYS—AUSTRALIA, 1966–67

System	Route Mileage Open at 30 June 1967	Revenue Train Mileage	Passenger Journeys (a) (b)	Revenue Goods and Livestock Carried (a)	Revenue Net Ton-Miles
	miles	'000 miles	'000	'000 tons	millions
New South Wales	6,055	37,638	255,284	29,275	4,554.8

Total Australia	25,059	93,682	454,735	68,484	11,516.7

(a) Interstate traffic is included in the total for each system over which it passes.
(b) Based on ticket sales making allowances for periodical tickets. Tickets sold at concession rates are counted as full journeys.
(c) Passenger journeys continuing over both the Trans-Australian and Central Australian Railway systems are counted twice. In 1966–67 these numbered 9,937.
(d) Tonnages carried over both the Trans-Australian and Central Australian Railway systems are counted twice. In 1966–67 these amounted to 110,729 tons.

LOCAL GOVERNMENT FINANCE

SCOPE, DEFINITIONS AND EXPLANATORY NOTES

Organisation of Local Government in Tasmania: For Local Government administration, Tasmania is at present divided into 49 areas comprising the cities of Hobart, Launceston and Glenorchy and 46 municipalities.

The authority for and the form of local government are prescribed entirely by State legislation and such legislation has largely been consolidated in the *Local Government Act* 1962 (but Hobart and Launceston operate under separate corporation Acts).

Scope and Source of Information: Local government finance statistics are compiled by the Bureau from copies of statements of accounts which the local government authorities are obliged by law to compile. The City of Glenorchy and the forty-six municipalities are required to submit annually to the Auditor General a 'Statement of Accounts' in pursuance of section 329 of the *Local Government Act* 1962. These statements of Accounts are compiled on a receipts and payments basis. The cities of Hobart and Launceston submit annually to the Auditor General Statements of Accounts compiled on an income and expenditure basis.

Principle Sources of Revenue: The principle sources of revenue for local government authorities are the charging of rates on the annual value of property, Government grants and charges for public works and services. There is considerable diversity in the types of rate imposed by individual local government authorities. In Hobart and Launceston a consolidated rate is levied. In most municipalities property holders are charged basic general, road, light and health rates but also are subject to additional rates assessed according to the services provided (e.g. fire brigade and library rates).

Business Undertakings and Ordinary Services: In the following statistics, a distinction is drawn between ordinary and business undertakings' revenue and expenditure. The only activities classified as 'business undertakings' are water supply, sewerage and abattoirs. All other activities are classified as ordinary services.

Main Sources of Local Government Loan Funds: The principle Tasmanian sources of loans are banks, superannuation and other trust funds, insurance companies and in the case of the cities, public issues of debentures. The local government loan debt includes only a small liability in respect of advances from the State Government.

Form of Local Government Debt: Much of the debt (of the municipalities) is in the form of Instalment Debentures which involve equal periodic payments usually yearly or half-yearly: such payments are credited to redemption and interest in changing proportions as the outstanding balance of the loan is reduced.

Limitations on Borrowings: The amount borrowed annually by local government authorities is regulated by the Australian Loan Council. Municipalities are also limited by Section 286 (1) of the *Local Government Act* 1962 which limits total borrowings to ten times the average income for the preceding three financial years.

Change in Geographical Classification: As from 30 June 1966, changes have been made to some Statistical Divisions in the southern part of the State; their effect is to enlarge and rename the Statistical Division containing Hobart and Glenorchy, and to correspondingly diminish the area of the adjacent Southern and South Eastern Statistical Divisions.

In this change, some municipalities (Brighton, Sorell, Kingborough and New Norfolk) have been partitioned between two Statistical Divisions; since details in this bulletin are compiled only in terms of *complete* local government authority areas, it has not been possible to publish separate totals for the Southern, South Eastern and Hobart Divisions; instead, a single figure is given.

(*a*) The year shown is the year of the latest complete revaluation (incorporated in the values shown) of the Local Government Area made by the State Valuation Branch under the *Land Valuation Act* 1950.

(*b*) Average rate per $1 of Rateable Annual Value. In all Local Government Areas except Hobart and Launceston, individual rates vary from the average according to location of the property and services rendered.

(*c*) Includes permanent and temporary employees at 30 June 1967, but excludes 134 part-time employees.

Grand Total—Revenue	13,765.0	14,792.4	16,249.7	17,395.2	19,076.3

(a) Where a single consolidated rate has been charged (as in Hobart and Launceston), the collection has been dissected between 'ordinary' and 'business undertakings' but the 'ordinary' component has been entered, without further analysis, as 'general'.
(b) Includes Building and Subdivision fees.
(c) From 1965-66, Revenue from Markets is included in Other Council Properties.
(d) Includes Commonwealth Government Employment Stimulation grants: $1,370,734 in 1962-63, $840,854 in 1963-64 and $117,760 in 1964-65.
(e) Includes contributions to Sinking Funds and interest earnings therefrom. Prior to 1964-65, receipts of Sinking Funds were offset against their corresponding expenditure items.
(f) These figures understate actual receipts since some authorities offset their grants against payments made to State regional water schemes and record only net figures.

ADDITIONAL NOTES ON WATER SCHEMES IN TASMANIA

In general, local government authorities have responsibility for the reticulation of water but, in some localities, semi-government authorities have been established to provide bulk water supplies. Details follow.

The Metropolitan Water Board, constituted under the provisions of the *Metropolitan Water Act* 1961, is responsible for the provision of an adequate bulk water supply to the metropolitan water districts of Hobart, Glenorchy, Clarence and Kingborough (Taroona Ward). The Board is empowered to direct the metropolitan local authorities in the operation of their bulk water supply works. Construction of the West Derwent Water Scheme commenced in 1962. The total cost of construction to 30 June 1967 was $5,161,031.

The Metropolitan Water Board is also vested with the control and management of the Southern Regional Water Supply Scheme which supplies the local government areas of Brighton, Clarence, Green Ponds, New Norfolk and Richmond. The capital cost of the scheme to 30 June 1967 was $2,331,199.

The North Esk Regional Water Scheme is managed by the Rivers and Water Supply Commission. This scheme serves portions of the local government areas of Evandale, George Town, Lilydale, St Leonards and Westbury and also provides water for industrial purposes. The St Leonards' water reticulation also serves portion of the local government areas of Evandale and Westbury. The capital cost of the scheme to 30 June 1967 was $3,020,296.

The West Tamar Water Scheme is managed and maintained by the Beaconsfield Municipal Council as an agent for the Rivers and Water Supply Commission. The scheme was partly installed by the Council but the *West Tamar Water Supply Act* 1960 provided for the Commission to complete the scheme, the Commission to be responsible for any future extensions. The capital cost of the scheme to 30 June 1967 was $2,163,320.

The Prosser River Water Scheme is managed by the Rivers and Water Supply Commission. This scheme provides water for the Sodium Alginate Industry at Louisville and supplements the water supply for the township of Orford. The capital cost of the scheme to 30 June 1967 was $381,896.

PRIVATE FINANCE

BANKING

Cheque Paying Banks: Australian cheque paying banks have been divided, for statistical purposes into two groups, namely (i) the Major Trading Banks and (ii) Other Banks. The Major Trading Banks comprise the Commonwealth Trading Bank, Australia and New Zealand Bank Ltd, the Bank of Adelaide, the Bank of New South Wales, the Commercial Bank of Australia Ltd, the Commercial Banking Company of Sydney Ltd, the English, Scottish and Australian Bank Ltd, and the National Bank of Australasia Ltd. All of these except the Bank of Adelaide operate in Tasmania. None of the Banks included in the 'Other Banks' group operates in Tasmania.

In the table on 'Classification of Advances Outstanding within Tasmania', advances to resident borrowers and non-resident borrowers are shown separately. Resident borrowers cover institutions (including branches of overseas institutions) engaged in business in Australia and persons permanently residing in Australia. Non-resident borrowers cover all other persons and institutions incorporated abroad, which though represented, do not carry on business in Australia. Advances to resident borrowers have been classified as business advances, advances to public authorities, personal advances and advances to non-profit organisations. Business advances have been further classified to the main industry of the borrower and include advances to partnerships, companies and other institutions engaged in business in Australia, advances to persons actively engaged in business on their own behalf if the advance is mainly for business purposes, advances to mutual, co-operative and benefit societies which distribute their profits or surpluses (if any) to members by way of dividends, rebates on charges for goods and services or increased benefits. Advances to public authorities cover advances to local and semi-government authorities including separately constituted government business undertakings but not Commonwealth or State governments. Personal advances cover advances to persons for purposes other than carrying on a business. Advances to non-profit organisations cover advances to organisations which do not operate for the purpose of making a profit or gain to its individual members, any income of the organisation being used for the purposes of the organisation or for the benefit of the community.

Savings Banks: In addition to the Savings Banks operated by each of the Major Trading Banks, except the Bank of Adelaide, there are two Trustee Savings Banks operating in Tasmania, namely the Hobart Savings Bank and the Launceston Bank for Savings. In addition to the summary of all Savings Bank activities provided in this Bulletin, some specific detail is provided on the two Trustee Savings Banks which operate only in Tasmania.

GENERAL INSURANCE

As the financial year of all companies does not end in the same month, the annual statistics are in respect of accounting periods which ended at any time during the year shown in the tables.

The tables contain selected items of statistics and the information shown is not suitable for the construction of a 'profit and loss' statement or 'revenue account'.

The statistics in this Bulletin conform substantially to the following definitions and should be interpreted in accordance therewith.

Premiums represent the full amount receivable in respect of policies issued or renewed during the year, less returns, rebates and bonuses paid or credited to policy holders during the year. They are not adjusted to provide for premiums un-earned at the end of the year, and consequently the amounts differ from 'earned premium income' appropriate to the year. In recent years, as the premium volume has been increasing, the figures shown in the tables are greater than the premiums earned by insurers.

Claims comprise payments made during the year, plus the estimated amount of outstanding claims at the end of the year, less the estimated amount of outstanding claims at the beginning of the year. Salvage and other amounts recoverable have been deducted.

Contributions to Fire Brigades, Commission Agents' Charges and Expenses of Management are those amounts actually paid during the year.

Taxation represents payments during the year and includes Income Tax, Pay-roll Tax, Licence Fees, Stamp Duty (where paid by the company) etc. Income Tax paid during the year is based on the income of earlier years.

LIFE INSURANCE

The statistics contained in this publication have been compiled from compulsory returns submitted by companies to the Commonwealth Insurance Commissioner in accordance with the *Life Insurance Act* 1945-1965. The information relates to the financial years, observed by individual companies, which ended within the calander year shown in the tables.

Details shown in relation to policies are for those issued in Tasmania. It should be noted that State of issue does not necessarily correspond with State of risk covered.

GOVERNMENT, LOCAL GOVERNMENT AND SEMI-GOVERNMENT PENSION AND SUPERANNUATION SCHEMES

This section contains information on the income and expenditure, assets and liabilities, and membership of the State Public Service, local and semi-government pension and superannuation schemes, the State Parliamentary Pension and Superannuation Scheme and Miners' Pension Fund scheme. The information does not relate to uniform periods, but to the financial years of the schemes which ended in the year shown. The schemes are included in 'Private Finance' because the funds belong to members, and not to the employing government authority.

The State Government and many local and semi-government authorities have established pension and superannuation schemes for eligible employees, to which both the employer and employee contribute. There are two main types of schemes: those operated through separately constituted funds and schemes operated through life insurance offices.

Details are provided for the combined operations of the following separately constituted funds. (1) State Superannuation Fund, (2) State Teachers' Superannuation Fund, (3) Police Provident Fund, (4) Metropolitan Transport Trust—Retiring Allowance and Staff Pensions Fund, (5) Marine Boards—Independent Schemes, (6) University of Tasmania—Staff Superannuation, Invalidity Pension and Supplementary Pensions Schemes. Details are also provided for the combined operations of local government and State semi-government authorities which operate schemes through life insurance offices.

A pension and superannuation scheme has been established for members of the State Parliament. This scheme operates through a fund to which the members of Parliament and the State Government contribute.

The Miners' Pension Fund was established to provide for pensions to miners upon retirement or when incapacitated by injury, etc. Contributions to the fund are made by the State Government, mine owners and miners.

PERMANENT BUILDING SOCIETIES

The Societies, which are registered under the *Building Societies Act* 1876 as amended, are both savings and deposit receiving institutions which advance funds for home building against the security of first mortgages. Those who invest by taking shares or making deposits are in a separate category from those who borrow to build a home. In other words applicants for loans need not be a member of, or a depositor with the society.

CO-OPERATIVE HOUSING SOCIETIES

Also known as terminating housing societies, these organisations are registered under the *Co-operative Housing Societies Act* 1963. By their rules, these societies are to terminate at a fixed date, or when a result specified in their rules is attained. The societies are of two types:

(i) those societies which are financed through the Home Builders' Fund and which receive Commonwealth-State Housing Loans periodically through the Agricultural Bank as Trustee of the Home Builders' Fund;
(ii) those societies which are financed through private lenders such as savings banks and insurance companies.

CO-OPERATIVE CREDIT SOCIETIES

The co-operative credit societies, commonly known as 'Credit Unions', are registered under the *Co-operative Industrial Societies Act* 1928 as amended. Members contribute capital by taking out shares and making interest bearing deposits; loans are made to members, repayment being by regular instalments.

CO-OPERATIVE SOCIETIES

The information contained in this bulletin relates to co-operative societies registered under the *Co-operative Industrial Societies Act* 1928 as amended. It does not include information on co-operative societies registered under the Companies Act. In the tables in this bulletin the term 'operating' is used to describe transactions concerned with processing and sale of goods, and 'non-operating' to describe earnings from commissions, discounts, the provision of services, etc.

FRIENDLY SOCIETIES, SPECIAL SOCIETIES, AND UNITED FRIENDLY SOCIETIES DISPENSARIES

Both Ordinary and Special Friendly Societies in Tasmania are registered under the *Friendly Societies Act* 1888 as amended. Ordinary societies provide customary sick and funeral benefits and are subject to actuarial valuation. Special Societies limit their membership to employees of industrial parent organisations and are not subject to actuarial valuation.

INSTALMENT CREDIT FOR RETAIL SALES

The statistics cover operations of all types of instalment credit schemes which relate primarily to the financing of retail sales of goods, whether the credit is advanced by a retail business or by a non-retail finance business. In general, the term 'instalment credit' is defined as relating to schemes in which repayment is made by regular pre-determined instalments. Types of schemes covered include hire purchase, time payment, budget account and personal loan schemes which relate primarily to financing of retail sales of goods. In these statistics the term 'retail sales' relates not only to retail sales by retail establishments coming within the scope of the Censuses of Retail Establishments conducted periodically by the Bureau, but includes also other sales of goods to final purchasers (e.g. Plant and Machinery).

Figures for amounts financed exclude interest, hiring charges, insurances, etc. Figures for balances outstanding and collections include interest, hiring charges, insurance, etc. Details are not available of these charges or of other items (e.g. rebates for early payments, late payment charges, bad debts written off) which affect the reconciliation of amounts financed, collections and balances outstanding.

FINANCE COMPANIES

'Finance Companies' comprise one of a number of classes of financial institutions. They are defined as companies which are engaged mainly in providing to the general public, credit facilities of the following types:

Hire purchase and other instalment credit for retail sales.
Wholesale hire purchase.
Other consumer and commercial loans and factoring.

The term 'factoring' is used by Finance Companies in different senses, but in these statistics it is applied to the category comprising loans on the security of 'trade' debts (i.e. debts due to businesses for goods and services supplied to other businesses for use in their business or for resale), trade debts purchased, and inventory finance (i.e. finance for trading stocks, other than that included under wholesale hire purchase). While there is little uniformity in the terminology used by Finance Companies, it is fairly common for Finance Companies to group these types of transactions as a separate category in their accounts.

1. EDUCATION

STRUCTURE OF GOVERNMENT EDUCATION SYSTEM IN TASMANIA, 1967

GENERAL

Education is free, secular and compulsory from the child's sixth to sixteenth birthday; almost all children therefore receive some secondary-level education. The levels of education available are sub-primary, primary, secondary and tertiary.

LEVELS OF SCHOOL EDUCATION

Sub-Primary: Pre-Schools for children 3½ to 6 years exist in many centres. Initially the Department provides the cost of buildings, but over a period recovers half the cost from parents. Teachers are provided and paid by the Department which also subsidises incidental operating and maintenance costs. The Department also provides kindergartens in the larger primary schools for children below the compulsory attendance age.

Primary: A full primary education requires a child to pass through six grades, the average age on 1 August 1967 of pupils in the sixth grade being 11 years 9 months. Schools providing education at primary level are classified as primary, primary with secondary grades, area schools or district schools.

Secondary: The secondary level of education may be based on a three, four, five or six year course, depending on the final certificate set as the objective (see 'Secondary Courses' below). Schools providing secondary education are primary with secondary grades, area schools, district schools, high schools and matriculation colleges. Entry to high schools is on a non-selective basis except where a choice has to be made between a pupil attending a high school and an area school; in such cases a transfer committee makes the decision. With two exceptions all schools are co-educational.

Special: Special schools and special classes are provided for the education of physically handicapped and mentally retarded children at sub-primary, primary and secondary school ages. In addition, correspondence education is provided for pupils at all levels unable to attend school. 'Adult' correspondence school pupils, i.e. persons in the work force, housewives, etc. taking one or more subjects by correspondence, are excluded from the tables in this publication.

SECONDARY COURSES

(i) **Secondary Schools Certificate:** The three-year course leading to this certificate may be undertaken at all types of secondary schools except matriculation colleges; it is awarded on the basis of internal examination, and the emphasis is practical rather than academic.

(ii) **Schools Board Certificate:** The four-year course leading to this certificate may be undertaken at high schools, district schools and some area schools. Some schools have power to recommend award of the certificate on internal accrediting; pupils of other schools sit for external examinations.

(iii) **Matriculation:** After four years of secondary education, pupils may proceed to matriculation colleges in Hobart or Launceston, or to matriculation classes at high schools in Burnie or Devonport. Matriculation may be attempted at the fifth year of the secondary course, or spread over the fifth and sixth year (the subjects passed in the student's first year may be added to those passed in the second year).

TERTIARY EDUCATION

The principal forms of tertiary education are:

University: The University of Tasmania relies, in the main, on the Tasmanian and Commonwealth governments for ordinary revenue and for capital for its building programme. Degree and post-graduate courses are available in the principal faculties.

Other Tertiary: Technical colleges and technical classes provide trade, technician, professional, commercial and other courses in major population centres. The Education Department is responsible for technical education, the School of Art and the Conservatorium of Music.

Teacher Training: Whilst some teachers are trained at the University, others take courses at teachers' colleges, the School of Art or the Conservatorium of Music, all of which are directly administered by the Education Department. Most trainee teachers receive financial assistance from the Department, and are bonded for a time on completion of training.

1967	19,590	3,530	2,432	14,574	1,983	7,606	243

NOTE: *Age and Invalid Pension:* From May 1967 the maximum weekly rate is $13 for single pensioners and a married pensioner whose spouse is not receiving the pension. The rate for married couple pensioners is $11.75 each. Age and invalid pensions are subject to a means test.
Widows' Pensions: From October 1966 the pension rate is: Class A widows $17 per week + $1.50 per week for all children under 16 years; other widows receive $11.75 per week. Certain widows' pensions are subject to a means test.
Maternity Allowances: (i) No other children under 16 years, $30; (ii) One or two other children under 16 years, $32; (iii) Three or more other children under 16 years, $35. The amount is increased by $10 for each additional child in a multiple birth.

(*a*) The Commonwealth commenced to pay endowment for student children aged 16 to 21 years, from 14 January 1964.
(*b*) Expenditure in this year includes five twelve-weekly payments instead of the usual four twelve-weekly payments for endowments paid to the credit of bank accounts.
NOTE: From January 1964 the weekly rates are: 50c for first child in a family; $1 for the second child, $1.50 for the third and subsequent children under 16 years in families, $1.50 for each child in an institution and $1.50 for full-time student children between 16 and 21 years.

(a) Generally the figures in this column are significantly lower than those for 'Committed to Higher Courts' appearing on page 20, because they relate to *complaints* (which often embrace several *offences*) whereas lower court cases relate to number of *offences*. It should also be noted that higher court cases frequently proceed under different offences titles from those under which the lower court committals were made.

(*a*) Includes informal votes.
(*b*) The Nationalist Party which contested elections in 1946 and earlier periods was replaced by the Liberal Party as from the 1948 elections.
(*c*) The number of seats in the House was increased to 35 at this election.

6. MISCELLANEOUS

MUSEUMS AND ART GALLERIES (a)

Receipts and Expenditure for the Year Ended 30 June 1967

($'000)

Receipts		Expenditure	
Government Grant	130	Salaries	102
City Council Grant	38	Office Expenses	14
Other	3	Displays, purchase of exhibits, etc.	13
		Equipment, plant and furniture	6
		Maintenance and repairs	5
		Other	30
Total	172	Total	170

(a) Administering authorities comprise the Tasmanian Museum and Art Gallery (Hobart) and the Queen Victoria Museum and Art Gallery (Launceston); the former also maintains the West Coast Pioneers' Memorial Museum at Zeehan and the latter the Cradle Mountain Trailside Museum at Waldheim.

PUBLIC LIBRARIES (a) PROVIDED UNDER LIBRARIES ACT, 1943

Year Ended 30 June	Proportion of Population Served by State Libraries at 30 June	Bookstocks Available (b).				Borrowings by Readers	Expenditure (Appropriation Act) (net)	Library Rates (c)
		Reference Library	Lending Library	Children's Library	Documentary Films and Recorded Music			
	per cent	no.	no.	no.	no.	'000	$'000	$'000
1963	98.4	87,550	204,511	138,273	7,404	2,373	343	148
1964	98.4	95,905	227,684	155,549	8,073	2,689	383	152
1965	98.4	99,478	240,708	161,932	9,322	2,815	435	153
1966	98.6	104,416	269,659	182,393	10,113	3,033	477	162
1967	99.7	109,512	288,221	183,587	9,928	3,114	497	186

(a) Excludes a number of non-municipal libraries run by organisations for employees and/or inmates.
(b) At 31 March.
(c) Library rates collected by local government authorities provide for expenditure additional to that shown under the Appropriation Act column. At 30 June 1967, all local government authorities except Glamorgan (which had its own library of 6,131 books) had joined the scheme embodied in the *Libraries Act* 1943; the Act requires participating local government authorities to spend annually on library services an amount not less than 0.25 per cent of the assessed annual value of all rateable property. All member local government authorities have libraries. Rural areas are also served by bookmobiles based on Hobart, Launceston and Burnie.

D. E. WILKINSON, Government Printer, Tasmania.
